- Continued steady sentiment witnessed in Chilli market on Thursday.
- For Teja variety demand reported from Thailand, Malaysia, China, Bangladesh and Sri Lanka etc. In September chilli export reported up around 39,876 MT as compared August 34,639 MT.
- Sources revealed that, Teja prices may go up further as export qualities available only at Andhra Pradesh and Telangana state.
- In Andhra Pradesh, still Chilli standing crop reported very crucial stage due to lower rainfall and in some areas virus infection reported. As per current situation, Andhra Pradesh chilli production likely to lower by 10% from earlier estimates. If hot weather condition continues in coming day's damage percentage may increase also.
- ***As per Agriwatch's second advance production estimate, Red Chilli production for 2019-20 is estimated at 12.00 lakh MT compared to earlier estimates of 12.45 lakh MT. Previous year's production was 10.50 lakh MT.***

Current year 70 -75% stocks reported at the time of new crop supply due to lower production. Chilli prices likely to go up further due to good export demand and hot weather condition in Andhra Pradesh.
- *Lower stocks supported chilli prices in the spot market. We expect that prices may not fall much further from current levels as cold storage stocks reported lower and new crop likely to enter in AP and Telangana market from last week of January.*

CARDAMOM

Fundamentals

Today's Update:

- Continued mixed sentiment witnessed in Cardamom spot market on Thursday.
- Currently buyers reported unresponsive at higher prices level.
- As third round picking activity finished in Kerala growing regions. Supply reported early current year due to favourable weather (before rainfall) condition.
- The current season, officially began on August 1. From 1st Aug to 08th November arrivals reported 6,347 tons and sales 6,214 tons.

Previous Update:

- Agriwatch estimate, for 2018 -19 productions likely to be around 24,000 – 26,000 MT as a result of massive loss in heavy rainfall, in 2017-18 it was around 30,000 – 32,000 MT.
- Increasing supply reported in the spot market as farmers were releasing their old and new stocks to meet their needs after devastating flood.
- Currently, Cardamom export banned to Saudi Arabia (major importer) due to higher pesticide issue, if it happens in normal way Indian Cardamom prices may trade at double level from current prices.
- We expect, as Cardamom prices reported higher at Indian market due to crop damaged in Kerala and Karnataka, Cardamom may import from Guatemala in coming days (November, December) during festive season. Normally, difference between Indian Cardamom prices and Guatemala prices are around Rs.300 - 350/-kg. However, direct import duty to India is 74%, but it may enter to Indian market via Nepal, Bhutan and Bangladesh etc.
- As Cardamom prices trading at higher levels from couple of days buyers reported unresponsive at the spot market. We expect from lower levels buyers likely to active in coming days.
- Due to heavy rainfall current year Cardamom production likely to go down in coming days and support the prices.

CORIANDER SEED

Fundamentals:

Today's Update:

- Mixed sentiment witnessed in coriander seed market on Thursday.
- In Rajasthan and Madhya Pradesh, sowing continues in growing regions, till now 15 – 20% sowing completed, we expect area likely to lower from last year.
- Lower rainfall may reduce Coriander sowing area in Gujarat. Currently in Gujarat deficient rainfall reported, Gujarat region and Saurashtra and Kutch region. Agriwatch estimated, Coriander sowing area may reduce by 25 - 30% current year, lower prices from last two years is also biggest concern. Till now around 30% sowing completed, it will continue next 15 – 20 days.

Previous Update:

- In Madhya Pradesh and Rajasthan major growing region Coriander sowing started, area likely to go down by 25 – 30% due to lower prices from last two years. Coriander sowing area may shift to Wheat, Chana, Garlic etc.
- Farmers almost releasing their stocks at current price level, still 15 - 20% with them. In both state, next 15 - 20 days sowing will continue. We expect lower sowing area and lower ending stocks likely to support Coriander prices in coming days.
- We expect Coriander prices likely to go up further in coming days. Coriander Badami prices are expected to gradually improve to a range of Rs.5,500 – Rs.5,700/- and Eagle variety is expected to increase to Rs.5,700 – Rs.6,100/-qtl.
- *Agriwatch estimate for 2018-19, production 3.13 lakh tons and opening stocks was around 1.83 lakh tons, after increasing exports and domestic consumption. We expect ending stocks to be lower by around 0.86 - 1.05 lakh tons, which is lower than 1.88 lakh tons compared to last year.*
