BLACK PEPPER

Fundamentals:
Today's Update:

- Steady to weak sentiment witnessed in Black Pepper Delhi spot market on Monday.
- Continuous supply in the spot market put cap on prices.
- Vietnam pepper prices in the Central Highlands and the South are also unchanged at VND 46,000 / kg. However, in Ba Ria - Vung Tau province alone, pepper price increased slightly by VND 500 / kg to VND 47,000 / kg.

Previous Update:

- Buyers reported active in the spot market from lower price level. Lower production current year support the prices.
- According to the International Pepper Organization (IPC), Indonesia's pepper production is expected to reach 25,000 tons for black pepper and 40,000 tons for white pepper. At the same time, this is the third largest pepper producer in the world after Vietnam and Brazil.
- However, this level is still lower than last year because some main gardens lack investment in care when prices fall too low for many years. In India, black pepper production is forecast to reach 45,500 tons and white pepper will reach 1,500 tons. The cause of the decline in pepper production in this country is due to the impact of natural disasters. Specifically, the target state of Kerala was severely damaged by floods in August. This flood not only caused damage to the area but also caused some diseases in the pepper. At the same time, the country is also suffering from cheap pepper and smuggled pepper into the domestic market.
- According to the International Pepper Association (IPA), in 2019, Vietnam plans to produce about 175,000 tons of black pepper and 25,000 tons of white pepper, continuing to hold the position of the largest pepper producer and exporter. However, this figure is lower than last year due to the narrowing of pepper areas due to price pressures and diseases.
- Brazil is expected to become the world's second largest pepper producer with an output of about 67,000 tons, including 64,000 tons of black pepper and 3,000 tons of white pepper.
- According to Kampot Pepper Trade Promotion Association (Cambodia), pepper exports of the association in 2018 reached 50,000 tons, lower than the 80,000 tons in 2017. The country's output is also reduced by 30,000 tons compared to 2017, down to 70,000 tons due to unfavorable weather.
