- Overall, the average rainfall received in Andhra Pradesh from 1-6-2019 to 04-09-2019 is recorded as 350.2 mm as against the Normal as on date of 421.2 mm showing by Normal -17 per cent.

Dharwad current year reported 27,000 hectares compared to last year 31,000 hectares, Haveri 13,039 hectares compared to last year 12,950 hectares till date sowing reported.
- Lower cold storage stocks supported the chilli prices at Guntur market. Guntur cold storage stocks reported lower by 40 - 45% from normal level due to lower carry forward stocks during current marketing year 2019-20.
- Chilli prices mainly supported by lower cold storage stocks in the spot market.
- MP chilli farmers may prefer early picking as green chilli prices traded higher. In major chilli market in Madhya Pradesh, green chilli prices reported higher around Rs.30 40/- kgs, normally at this period it was Rs.10 15/- kgs. Farmers may prefer early picking (may not wait till red chilli) for chilli (green) as prices reported higher, and this likley to impact on Red chilli production. Earlier Agriwatch estimate, Madhya Pradesh Red chilli production likely to be around 19 to 20 lakh bags (35 kg) as per current situation if farmers prefer to go for green chilli then red chilli production likely to be around 15 17 lakh bags.
- Chilli transplanting activity is going on in Andhra Pradesh and Telangana. Currently weather reported favourable
 in both states. Transplanting activity likely to continue till September first week in AP and Telangana.
