BLACK PEPPER

Fundamentals:

Today's Update:

- Steady to weak sentiments witnessed in Black Pepper Delhi cash markets on Wednesday.
- Continuous import from Vietnam via Sri Lanka due to lower prices also put cap on prices. Pepper price in Sri Lanka is around ₹200/kg (\$2,800/tonne) and this has forced exporters to look at imports rather than depend on the domestic market.
- Vietnam pepper price in the whole Central Highlands increased by VND 500 / kg in Gia Lai and Binh Phuoc provinces to VND 39,500 / kg and VND 41,000 / kg respectively. Pepper prices in Dong Nai province increased by VND 1,000 / kg to VND 40,000 / kg.

- Vietnam currently has about 100,000 hectares of pepper for harvesting with an average yield of about 24.7 quintals / ha, equivalent to an output of about 247,000 tons. However, while the price of pepper is still very low, production costs tend to increase, at least 10% compared to 2017.
- Vietnam export in the first 8 months of 2019, Vietnam, though exporting pepper reached 224,000 thousand tons, up 27.9% over the same period, but turnover decreased slightly by 2.1% and reached only 571 million USD due to 23.4% reduction in export prices.
- According to the International Pepper Association (IPC), the world demand for pepper is about 510,000 tons / year and the average annual increase of 2-3%, while production increased by 8-10%. World pepper production in 2018 reached 557,000 tons and is expected to reach 602,000 tons in 2019.
- It is forecast that by 2050, world pepper production will increase to 1 million tons and consumer demand will also increase, but not balanced with supply. Therefore, it will be hard for pepper prices to recover strongly due to excess supply.
- Oversupply pressure on the world market continued to increase as the two major producing countries including Indonesia and Brazil entered the harvest, and inventories of major producing countries were still large.
