TURMERIC

Fundamentals:

Today's Update:

- Continued steady sentiment witnessed in Turmeric spot market on Friday.
- Mostly market closed due to fresh corona virus infection. No major movement reported.

Previous Update:

- We expect Turmeric prices may not go down below from current levels. However, farmers were not happy with these current prices as per their cost and labour.
- As per current scenario, this year sowing area may go down by 8 – 10%, if prices may go down further decrease percentage may go up, however it will more clear during July and August.
- From last week Turmeric demand reported from Bangladesh, but due to higher stocks and lower purchasing power from trader, prices is not moving upward as expected.
- AP Govt started Turmeric procurement in Kadapa and Duggirala from 4th May. Till 16th June around 21,880 MT procured by Govt. This is 44% of total production.
- But prices remain low because of the procurement limit of 40 quintals per farmer, and also because movement to other states is slow because of the Virus fear.
- As per trade information, due to lower prices current year Turmeric area may go down in Telangana growing regions. Sowing not started yet.*
- Erode Turmeric market reopens, buyers reported active in the spot market, however very few farmers bringing their produce to the mandi, prices reported steady today.
- As per Agriwatch's second production estimate, Turmeric production for 2020-21 is estimated at 452,698 (after flood in MH and Karnataka) MT (basis dry crop) compared to previous year's 532,353 MT (2019-20 marketing season).*
