- Warangal and Khammam spot market closed from today due to fresh corona virus infection, likely to reopen on next week.
- Red Chilli harvesting activity is completed in Andhra Pradesh, Telangana and Karnataka state; mostly produce is

- In Madhya Pradesh, current year chilli sowing going on, area likely to increase by 10 15% as farmers received
 very good prices for last year crop. New crop supply likely to enter from mid October. Chilli prices likely to correct
 from higher levels in the spot market due to lower domestic and export demand as a result of corona virus fear
 amid expectation of increase in sowing area in major growing states like AP, Telangana, Karnataka and MP.

TURMERIC

Fundamentals:

Today's Update:

- Continued steady sentiment witnessed in Turmeric spot market on Tuesday.
- Mostly market closed due to fresh corona virus infection. No major movement reported.

- We expect Turmeric prices may not go down below from current levels. However, farmers were not happy with these current prices as per their cost and labour.
- As per current scenario, this year sowing area may go down by 8 10%, if prices may go down further decrease percentage may go up, however it will more clear during July and August.
- From last week Turmeric demand reported from Bangladesh, but due to higher stocks and lower purchasing power from trader, prices is not moving upward as expected.
- AP Govt started Turmeric procurement in Kadapa and Duggirala from 4th May. Till 16th June around 21,880 MT procured by Govt. This is 44% of total production.
- But prices remain low because of the procurement limit of 40 quintals per farmer, and also because movement to other states is slow because of the Virus fear.
- As per trade information, due to lower prices current year Turmeric area may go down in Telangana growing regions. Sowing not started yet.
- Erode Turmeric market reopens, buyers reported active in the spot market, however very few farmers bringing their produce to the mandi, prices reported steady today.
- As per Agriwatch's second production estimate, Turmeric production for 2020-21 is estimated at 452,698 (after flood in MH and Karnataka) MT (basis dry crop) compared to previous year's 532,353 MT (2019-20 marketing season).
