

## **RED CHILLI**

### **Fundamentals:**

#### **Today's Update:**

- Continued steady sentiment witnessed in Red Chilli market on Wednesday.

#### **Previous Update:**

- Buyers remained inactive in the spot market as movement to other states is slow because of the Virus fear and fresh infection reported in some areas.
- Currently, new crop supply both fresh and cold stores continued at Guntur spot market. On an average 40,000 to 50,000 bags (1 bag = 45kgs) per day of supply was reported. Normal moisture percentage reported around 5 to 7%.
- Chilli premium variety like Teja prices reported steady due to good demand from export countries like Vietnam, Malaysia, China and Sri Lanka etc. Good demand reported for deluxe quality in all variety at Byadgi spot market.
- *Red Chilli harvesting activity is completed in Andhra Pradesh, Telangana and Karnataka state; mostly produce is in cold storage in Andhra Pradesh and Telangana. In the current year, more chilli being stored in Cold stores may put cap prices in coming days. Also MP new chilli crop likely to start from October onwards.*
- *In Madhya Pradesh, current year chilli sowing going on, area likely to increase by 10 – 15% as farmers received very good prices for last year crop. New crop supply likely to enter from mid October. Chilli prices likely to correct from higher levels in the spot market due to lower domestic and export demand as a result of corona virus fear amid expectation of increase in sowing area in major growing states like AP, Telangana, Karnataka and MP.*
- Current year, in Andhra Pradesh and Telangana, around 540,000 tonnes of chilli is stored in Cold stores, last year it was 405,000 tonnes, due to higher production current year stocks reported higher, domestic and export demand very low in Indian spot market due to corona virus fear, if domestic consumption and export demand come down further, ending stocks will increase, **Chilli prices likely to correct from higher levels in the spot market in coming days.**

### **TURMERIC**

#### **Fundamentals:**

#### **Today's Update:**

- By and large steady sentiment witnessed in Turmeric spot market on Wednesday.

#### **Previous Update:**

- We expect Turmeric prices may not go down below from current levels. However, farmers were not happy with these current prices as per their cost and labour.
- As per current scenario, this year sowing area may go down by 8 – 10%, if prices may go down further decrease percentage may go up, however it will more clear during July and August.
- From last week Turmeric demand reported from Bangladesh, but due to higher stocks and lower purchasing power from trader, prices is not moving upward as expected.
- AP Govt started Turmeric procurement in Kadapa and Duggirala from 4th May. Till 16th June around 21,880 MT procured by Govt. This is 44% of total production.
- But prices remain low because of the procurement limit of 40 quintals per farmer, and also because movement to other states is slow because of the Virus fear.
- *As per trade information, due to lower prices current year Turmeric area may go down in Telangana growing regions. Sowing not started yet.*
- Erode Turmeric market reopens, buyers reported active in the spot market, however very few farmers bringing their produce to the mandi, prices reported steady today.
- *As per Agriwatch's second production estimate, Turmeric production for 2020-21 is estimated at 452,698 (after flood in MH and Karnataka) MT (basis dry crop) compared to previous year's 532,353 MT (2019-20 marketing season).*
