Fundamentals:

Today's Update:

- Continued steady sentiment witnessed in Red Chilli market on Saturday. Mostly market closed due to weekend.

Previous Update:

- Buyers reported active at Warangal and Khammam spot market, as good quality chilli cold storage stocks coming to the market.
- Good export demand reported from China, Pakistan, Sri Lanka, Thailand, Indonesia and Bangladesh etc. support the prices. Chilli powder company's demand also reported well in the spot market.
- We expect chilli prices likely to go up Rs.1,000 – 1,500 more from current levels in coming days.
- As per market source, currently at Guntur cold storage chilli stocks reported around 202,500 MT as compared to last year 135,000 MT and in total AP around 292,500 MT.
- At Guntur spot market, currently Chilli quality supply slightly lower than normal. However, Chilli premium variety like Teja, 334 traded at higher prices due to good demand from countries like Vietnam, Malaysia, China and Sri Lanka etc. Good demand reported for deluxe quality in all variety at Byadgi spot market.
- *Red Chilli harvesting activity is completed in Andhra Pradesh, Telangana and Karnataka state; mostly produce is in cold storage in Andhra Pradesh and Telangana. In the current year, more chilli being stored in Cold stores may put cap prices in coming days. Also MP new chilli crop likely to start from October onwards.*
- *In Madhya Pradesh, current year chilli sowing going on, area likely to increase by 10 – 15% as farmers received very good prices for last year crop. New crop supply likely to enter from mid October. Chilli prices likely to correct from higher levels in the spot market due to lower domestic and export demand as a result of corona virus fear amid expectation of increase in sowing area in major growing states like AP, Telangana, Karnataka and MP.*

TURMERIC

Fundamentals:

Today's Update:

- Steady sentiment witnessed in Turmeric spot market on Saturday. Mostly market closed due to weekend.
- Due to higher stocks in Indian domestic market prices were not moving upward as market participants were expected before covid-19 situation.
- Currently, market movement is improving day by day so we suggest holding at current levels should be the likely action, as of now.

Previous Update:

- AP Govt. procurement final turmeric quantity around 49,919 MT.
- We expect Turmeric prices may not go down below from current levels. However, farmers were not happy with these current prices as per their cost and labour.
- As per current scenario, this year sowing area may go down by 8 – 10%, if prices may go down further decrease percentage may go up, however it will more clear during July and August.
- *As per Agriwatch's second production estimate, Turmeric production for 2020-21 is estimated at 452,698 (after flood in MH and Karnataka) MT (basis dry crop) compared to previous year's 532,353 MT (2019-20 marketing season).*

CORIANDER SEED
