### **Fundamentals:**

#### **Today's Update:**

- Steady sentiment witnessed in Red Chilli market on Thursday.

- However, current Chilli prices are reported down by Rs.800/-qtl compared to before summer vacation due to quality issue.
- Guntur APMC mandi likely to reopen on 14<sup>th</sup> June, earlier it was 7<sup>th</sup> June.
- As per trade sources, as of now around 65 – 68 lakh bags (1 bag = 40 kgs) new chilli stored at Guntur cold storage of total capacity 70 lakh bags. AP total around 85 – 90 lakh bags stored as of now.
- Chilli traders are hopeful for prices going up after the Guntur market reopens as export quantities are pending for delivery to countries like China, Bangladesh, Sri Lanka etc. due to shortage of labour. Though current year India's Red Chilli production went up by 12% as per Agriwatch estimates from the previous year, but due to unseasonal rainfall during maturity stage quality reported damaged and supported the prices.
- Agriwatch estimates, Red Chilli all India production for 2021-22 is estimated at 13.84 lakh MT. Last year's production was 12.32 lakh MT.

#### **Previous Update:**

- Odisha pepper farmers are facing difficulties in transporting and submitting black pepper to the main markets such as Andhra Pradesh, Karnataka, Maharashtra, Delhi and some other states. After huge losses last year, farmers here are expecting pepper production and sales to recover this season, sources revealed. Normally, black pepper in Odisha state is in March - April for about 500 rupees/kg. However, the second wave of COVID-19 is affecting pepper prices and output for the moment.
- Pepper planter's are holding their produce, as they are not interested to supply their produce at the current prices level also lower market movement due to lockdown in Kerala growing regions added the bullish sentiment.
- Domestic pepper farmers have called for the intervention of the Spices Board to ensure the purchasing and marketing for processors, dealers and consumers is taking place in accordance with their requirements. They pointed out restrictions on spice buyers and traders, especially in the two districts of Idukki and Wayanad in Kerala growing state, amid the shutdown due to the COVID-19 pandemic.
- The state's industrial regulator allowed processing units to operate, as spices belong to the food industry and are directly related to exports. However, processing units are having difficulty meeting domestic demand from Masala's manufacturers when raw materials are not available for processing.
- As per trade information, last few years very large quantities (on an average yearly around 5,000 MT) of pepper imported from Vietnam via Nepal and Myanmar to India illegally, but from last two years its banned, which was supported the Indian pepper prices and it will support the prices further in coming days.
- Currently, increasing demand coming from North-Eastern states, Bihar, West Bengal, Jharkhand etc. which was not coming in this way for the last few years as a result of illegal trade and growing domestic demand from other states likely to support pepper prices further.
- According to International Pepper Organization (IPC), in 2021, global pepper production is expected to reach 555 thousand tons, down 21 thousand tons compared to 2020 (576 thousand tons).
- Global pepper exports in 2020 recorded a slight increase of 2% at 481 thousand tons. The top three exporters are Vietnam, Brazil and Indonesia with a total market share of 89%.
- Currently, Vietnam has completed the harvest of the new pepper season. Pepper output in this crop is estimated at 180,000 tons, down 25-30% from the previous year. Although the official number has not been announced.
- According to Vietnam Pepper Association, the total pepper export volume is about 95,000 tons from January to April 2021 (in the first 4 months of 2020, it is 116,764 tons), down by 18.64%.

## CARDAMOM

### Fundamentals

#### Today's Update:

- Continued steady sentiment witnessed in Delhi Cardamom spot market on Thursday.

#### Previous Update:

- Currently, Spice Board has been suspended Cardamom e-auctions in Idukki, Kerala and Bodinayakanur in Tamil Nadu due to Covid-19. Around 95 per cent of the planters are depending on auctions to get a fair price for their produce.
- As per trade information, private sales are happening through farm gate level, but it is not helping the traders to receive the desired grades and quantity.
- Subdued demand in the upcountry markets has hit the sales and liquidity for buying in the consuming centers of Delhi, Rajasthan, Madhya Pradesh, Uttar Pradesh etc. in the second wave of Covid.
- India's production for the coming marketing year 2021-22 (which will start from August officially) expected better around 30,000 MT also put the cap on prices.
- Cardamom planters were received higher prices last two years, therefore, they are taking care of their plants and favourable weather condition, is the main reason for expecting good crop in the coming year.
- As we expected earlier, the new Cardamom supply pressurizes the prices from higher levels due to increased production.
- Agriwatch estimates for 2020-21, India's Cardamom production would be around 22,000 – 23,000 MT, due to favourable weather conditions. Last year it was 19,000 – 20,000 MT.
