CARDAMOM

Fundamentals

Today's Update:

- Continued steady sentiment witnessed in Delhi Cardamom spot market on Thursday.

Previous Update:

- Currently, Spice Board has been suspended Cardamom e-auctions in Idukki, Kerala and Bodinayakanur in Tamil Nadu due to Covid-19. Around 95 per cent of the planters are depending on auctions to get a fair price for their produce.
- As per trade information, private sales are happening through farm gate level, but it is not helping the traders to receive the desired grades and quantity.
- Subdued demand in the upcountry markets has hit the sales and liquidity for buying in the consuming centers of Delhi, Rajasthan, Madhya Pradesh, Uttar Pradesh etc. in the second wave of Covid.
- India's production for the coming marketing year 2021-22 (which will start from August officially) expected better around 30,000 MT also put the cap on prices.
- Cardamom planters were received higher prices last two years, therefore, they are taking care of their plants and favourable weather condition, is the main reason for expecting good crop in the coming year.
- As we expected earlier, the new Cardamom supply pressurizes the prices from higher levels due to increased production.
- Agriwatch estimates for 2020-21, India's Cardamom production would be around 22,000 – 23,000 MT, due to favourable weather conditions. Last year it was 19,000 – 20,000 MT.
