

## RED CHILLI

### **Fundamentals:**

#### **Today's Update:**

- Continued steady sentiment witnessed in Red Chilli market on Monday.
- Current year Chilli sowing likely to start from July first or second week in major growing regions like AP, Telangana etc. We expect sowing area likely to go up by 30 – 40% as per current situation as farmers are receiving higher prices compared to last year.
- Current year, total value of Chilli seed for sowing is around Rs.10 crore compared to last year Rs.6 crore as farmers are more interested for chilli sowing.
- Buyers may inactive at higher prices due to overflow of chilli cold storage stocks in AP, Telangana, Karnataka and exporters demand are slow in the spot market due to increased shipping costs.

#### **Previous Update:**

- Due to coronavirus lockdown and shortage of labour Chilli export quantities are pending for delivery to countries like China, Bangladesh, Sri Lanka etc. Now aftermarket reopens trading is happening in the normal way which will support the prices going up.
- As per trade sources, as of now around 65 – 68 lakh bags (1 bag = 40 kgs) new chilli stored at Guntur cold storage of total capacity 70 lakh bags. AP total around 85 – 90 lakh bags stored as of now.
- Chilli traders are hopeful for prices going up Though current year India's Red Chilli production went up by 12% as per Agriwatch estimates from the previous year, but due to unseasonal rainfall during maturity stage quality reported damaged and supported the prices.
- Agriwatch estimates, Red Chilli all India production for 2021-22 is estimated at 13.84 lakh MT. Last year's production was 12.32 lakh MT.
