

RED CHILLI

Fundamentals:

Today's Update:

- Major spot markets remain closed due to Asthami, otherwise steady sentiment witnessed in Red Chilli spot market on Wednesday.
- At Bedia market, total supply reported around 10,000 to 11,000 bags (1 bag = 35 Kgs), in that new chilli arrivals reported around 800 to 1,000 bags with moisture condition. From total supply, 65% fatki variety, 25% medium and 10% good quality supply reported.

Previous Update:

- At Byadgi market, new chilli arrivals reported around 250 bags.
- As per AP agricultural data as of 06th October, current year chilli sowing completed around 164,416 hectares, compared to last year 139,000 hectares. Normal in season 137,946 hectares. Chillies are at transplantation to vegetative stage. Overall, the average rainfall received in Andhra Pradesh from 01.06.2021 to 06.10.2021 is recorded as 625.6 mm as against the Normal as on date of 606.1 mm.
- In MP, due to heavy rainfall in Chilli growing regions is hampering the chilli drying process. As per the current situation, new chilli arrivals from MP are likely to delay by 15 to 20 days, earlier it was expected from the first week of October. Overall chilli standing crop is reported well, expected higher production compared to last year.
- Buyers are inactive at current higher prices due to overflow of chilli cold storage stocks in AP, Telangana, Karnataka and expectations of increase in sowing area.
- Buyers reported inactive at Byadgi market today. New chilli arrivals reported around 100 bags with moisture around 15%.
- No crop damage reported in AP and Telangana, standing crop quality reported good as of now.
- Currently, in MP green chilli prices reported around Rs.12 to 14/-kg as compared to last year Rs.30 to 35/-kg, farmers are not interested for green chilli picking activity, so red chilli production (as farmers are waiting for full maturity) likely to go up compared to last year.
- **Agriwatch first advance estimates, Red Chilli all India production for 2022 is estimated at 15.93 lakh MT. Last year's production was 13.84 lakh MT, up by 15.10% from last year.**
- Chilli prices will move further depend on export demand. Buyers are active at lower levels; chilli prices are lower compared to last year. Currently, good demand for premium quality Teja variety, if Teja prices come down, other variety will come down.

TURMERIC

Fundamentals:

Today's Update:

- Steady sentiment witnessed in Turmeric spot market reported on Wednesday.

Previous Update:

- As per AP agricultural data as on 06th October, current year Turmeric sowing completed around 19,376 hectares, compared to last year 20,942 hectares. Normal in season 19,551 hectares.
- Turmeric standing crop quality reported well as of now, weather is favourable in growing regions. Agriwatch expected higher production coming year may cap on prices from higher levels.
- Currently, export demand reported lower due to increased shipping cost and some travel restriction in South Asian countries added the bearish sentiment.
- Agriwatch first advance estimates, Turmeric all India production for 2022 is estimated at 4.89 lakh MT. Last year's production was 4.46 lakh MT, up by 9.64% from last year.**

BLACK PEPPER

Fundamentals:

Today's Update:

- Steady sentiment witnessed in Black pepper spot market reported on Wednesday.

Previous Update:

- Vietnam Pepper prices in the Central Highlands provinces continued to increase by 3,000 VND/kg in September to 81,500 VND/kg, the highest in nearly 4 years. This price increase is expected to continue in the last months of the year because the pepper production of Vietnam as well as some major pepper producing countries such as Brazil and Indonesia are affected by climate change, so the annual output is expected to decrease continually.
- According to statistics of the Ministry of Agriculture and Rural Development, in the first nine months of 2021, although the export volume of pepper decreased (reaching 213 thousand tons, down 3.3%).
- World pepper market will be active in the third quarter of 2021 due to an increase in demand after the US and European countries relax social distancing measures. Pepper prices are expected to stay high due to reduced supplies from Brazil, Indonesia and Vietnam, as per VPA.
- According to the International Pepper Organization (IPC), Vietnam's 2021 pepper harvest will reach 180,000 MT, down 40,000 tons compared to the previous forecast, and 60,000 tons lower (down 25%) compared to with the 2020 harvest.

JEERA (CUMIN SEED)

Fundamentals:

Today's Update:

- Continued mixed sentiment witnessed in Jeera Unjha spot market on Wednesday.

Previous Update

- Due to good rainfall in jeera growing regions in Gujarat on time sowing expected, which likely to start from mid October. Market participants are expecting lower sowing area as jeera prices are lower compared to other competitive crop like Coriander, Ajwain, Fennel etc.
- Farmers and stockists are only interested to releasing their produce at higher prices level.
- Current year Jeera sowing area may shift towards Soybean, Groundnut, Coriander, Ajwain, Fennel due to higher prices, sowing will start from October mid-week.
- As per the Agriwatch production estimate, Jeera production for 2021-22 (marketing period) is estimated at 391,801 MT (around 71 lakh bags each of 55 kg) compared to last year's 451,451 MT (82 lakh bags).

CARDAMOM

Fundamentals

Today's Update:

- Cardamom spot market reported steady sentiment on Wednesday.

Previous Update:

- New Cardamom supply continued into the market as first round picking activity is going on in Kerala growing regions and it will continue till October first week. Expectations of higher production current year may cap on prices in coming days.
- India's production for the coming marketing year 2021-22 (already started from August) expected better around 30,000 MT also put the cap on prices.
- Lower supply reported as Cardamom planters are not interested to releasing their produce at lower level.
- Cardamom planters were received higher prices last two years, therefore, they are taking care of their plants and favourable weather condition, is the main reason for expecting good crop in the coming year.
- As we expected earlier, the new Cardamom supply pressurizes the prices from higher levels due to increased production.
- Agriwatch estimates for 2020-21, India's Cardamom production would be around 22,000 – 23,000 MT, due to favourable weather conditions. Last year it was 19,000 – 20,000 MT.

CORIANDER SEED

Fundamentals:

Today's Update:

- Mixed sentiment witnessed in Coriander spot market on Wednesday.
- As we expected buyers are active from lower prices level as festival season started.

Previous Update:

- Ontime sowing expectations put cap on Coriander prices. Due to good rainfall in major growing regions in Gujarat, Rajasthan and MP buyers are expecting on time sowing. Currently, Coriander prices are traded higher compared to last year may attract farmers to go for an increase in sowing area, however, it will be clearer after sowing will start from October last week.
- Farmers want to release their produce at higher prices only.
- Buyers from consumer center like Bihar, UP are active in the spot market mainly in Gondal, Kota, Ramganj etc. mandi due to good quality.
- Agriwatch estimates lower ending stocks for 2021-22 (marketing year) likely to support Coriander prices in the coming days.
- As per Agriwatch production estimate, Coriander production for 2021-22 (marketing year) is estimated at 342,435 MT (85 lakh bags) compared to last year's 352,316 MT (88 lakh bags, 1 bag = 40 kg).
