

RED CHILLI

Fundamentals:

Today's Update:

- Steady sentiment was witnessed in Red Chilli spot market on Monday.
- In AP and Telangana, Red Chilli standing crop affected by virus, farmers are uprooting their crop. Actual damage percentage not clear till now, it will clear by next week.

- At Byadgi market, new chilli arrivals reported around 1,000 bags, arrivals reported down due to rainfall, prices reported up by Rs.1,000 – 1,500/-qtl last week.
- Due to heavy rainfall in Karnataka chilli growing regions likely to impact chilli standing crop. As per initial report, chilli crop may damage by 8 to 10% as per current situations. Farmers are fearful regarding chilli quality also. Next 10 -15 days is crucial.
- At Bedia (Madhya Pradesh) market, chilli prices reported up due to good demand. Buyers are interested only for good quality. Farmers are waiting for higher prices for releasing their produce.
- Red Chilli new crop supply likely to start at Guntur market from January onwards.
- As per current situation, Agriwatch expects bumper Red Chilli crop in coming marketing year. Agriwatch first
 advance estimates, Red Chilli all India production for 2022 is estimated at 15.93 lakh MT. Last year's
 production was 13.84 lakh MT, up by 15.10% from last year.

TURMERIC

Fundamentals: Today's Update:

- Steady sentiment was witnessed in Turmeric spot markets on Monday.
- Turmeric supply was up by 19% last week, as stockists were slowly releasing their stocks in the spot market, they are expecting higher prices in coming days.
- Turmeric standing crop quality is reported well as of now. However, continuous rainfall and cloudy weather
 in growing regions in AP and Telangana may concern for Turmeric crop. As of now, no crop damage
 reported.

- As per AP agricultural data, current year final Turmeric sowing completed around 19,955 hectares, compared to last year 20,942 hectares. Normal in season 19,551 hectares.
- Currently, export demand reported lower due to increased shipping cost and some travel restriction in South Asian countries added the bearish sentiment.
- Agriwatch first advance estimates, Turmeric all India production for 2022 is estimated at 4.89 lakh MT. Last year's production was 4.46 lakh MT, up by 9.64% from last year.

BLACK PEPPER

Fundamentals: Today's Update:

Steady to weak sentiment witnessed in Black pepper spot market reported on Monday.

- Lower production expectations supported the domestic pepper prices. As per current situations, Agriwatch expected India's pepper productions for 2021-22 likely to go down by 8 to 10% compared to last year. Last year (2020-21) India's Pepper production was 62,000 MT.
- Agriwatch expects, black pepper prices likely to go up further around Rs.70,000 75,000/-qtl, as other
 producing countries new crop arrivals likely to start from March in Vietnam and expected lower production.
 So, domestic as well as international buyers are looking for Indian variety.
- Facing erratic climate in some areas such as Hassan, Chikkamagaluru and Kodagu, pepper growers in Karnataka state (India) are worried about a decrease in production this year. Continuous rain has increased the moisture in the soil, harming the growth of pepper plants.
- Vietnam Pepper price as on 23rd November in the range of 81,500 84,000 VND/kg. Vietnam's export prices of black and white pepper remained stable, while Indian and Indonesian pepper prices increased.
- In Dak Lak and Dak Nong provinces, today's pepper price is purchased at 82,500 VND/kg. In Gia Lai province, pepper price today is at 81,500 VND/kg. Meanwhile in Dong Nai, pepper price today is at 82,000 VND/kg. In Ba Ria Vung Tau province, today's pepper price is at 84,000 VND/kg. As for Binh Phuoc province, today's pepper price is purchased at 83,000 VND/kg.
- Vietnam pepper export from January to October 2021, was reported around 229,736 tons, compared to the same period in 2020, the export volume decreased by 5%. Progressively from January to October 2021, Vietnam imported 21,977 tons, of which black pepper reached 16,322 tons, white pepper reached 5,655 tons, compared to the same period in 2020, the import volume decreased by 29.1%.
- Imports of the Americas increased by 8.9%, of which the US was the largest market for Vietnam's pepper, reaching 50,939 tons, up 8.9% over the same period.
- In the European region, imports increased by 3.9%, led by the German market: 10,310 tons, up 9%. Imports decreased in Russia, Poland, Ukraine.
- Meanwhile, in Asia, imports decreased by 9.7%, of which China's imports decreased by 16.5% to 37.283 tons. Saudi imports increased sharply by 35% to 14,610 tons.
- From Vietnam, India's imports 11,382 tons, up 1.2%; Pakistan: 9,877 tons, up 8.5%; Korea: 5.417 tons, up 7.7%, ... Import markets decreased: Thailand, Saudi Arabia, Japan, Myanmar, according to VPA.
- Brazil's pepper exports are increasing again due to the additional supply from the new harvest taking place.
- According to data from the Brazilian Ministry of Industry, Foreign Trade and Services (MDIC), in September, the country exported 6,018 tons of pepper, a sharp increase of 44.5% compared to August and an increase of 19.3%. compared with the same period last year.
- Continued lower supply reported in the Kochi spot market as stockists are holding back their stocks an expectation of further higher prices in coming days.
- Due to lower supply from other producing countries in the global market, demand shifted to Indian market supported the domestic prices despite of higher production (2020-21).
- Fresh domestic demand in the spot market as winter season is approaching supported the prices.
- According to trade sources, purchasing power from major import markets such as Europe, US, China, Middle East and Africa... is still very large due to the strong increase in orders in the fourth quarter to meet year-end demand.
- Vietnam Pepper prices is expected to increase continue till the last months of the year because the pepper production of Vietnam as well as some major pepper producing countries such as Brazil and Indonesia are affected by climate change, so the annual output is expected to decrease continually.

JEERA (CUMIN SEED)

Fundamentals: Today's Update:

- Continued mixed sentiment witnessed in Jeera Unjha spot market on Monday.
- According to Gujarat Agri. Dept, as on 22nd November, 63,144 hectares as compared to last year same period 168,360 hectares.
- Current year, Jeera sowing started in Rajasthan and Gujarat growing regions, as of now 20 to 25% sowing completed. Market participants are expecting lower sowing area as jeera prices are lower compared to other competitive crop like Coriander, Ajwain, Fennel etc.

- As festive demand started buyers reported active from lower prices level.
- Farmers and stockists are only interested to releasing their produce at higher prices level.
- As per the Agriwatch production estimate, Jeera production for 2021-22 (marketing period) is estimated at 391,801 MT (around 71 lakh bags each of 55 kg) compared to last year's 451,451 MT (82 lakh bags).

CARDAMOM

Fundamentals

Today's Update:

Steady to weak sentiment witnessed in Cardamom spot market on Monday.

- Due to recent flood in Kerala growing regions like Idukki affected the Cardamom plants. As per trade sources, around 10% crop loss reported till now.
- Third round picking activity started from November first week.
- India's production for the coming marketing year 2021-22 (already started from August) expected better around 27,000 MT also put the cap on prices. Last year it was 23,000 MT.
- Cardamom planters were received higher prices last two years, therefore, they are taking care of their plants and favourable weather condition, is the main reason for expecting good crop in the coming year.
- As we expected earlier, the new Cardamom supply pressurizes the prices from higher levels due to increased production.

CORIANDER SEED

Fundamentals: Today's Update:

- Steady sentiment witnessed in Coriander spot market on Monday.
- Current year, Coriander sowing slowly started in Rajasthan, MP and Gujarat growing regions, as of now 40 to 45% sowing completed.
- According to Gujarat Agri. Dept, as on 22nd November, 35,486 hectares as compared to last year same period 60,693 hectares.

- As per Agriwatch initial sowing report, in MP Neemuch and Mandsour growing regions farmers are shifting Coriander crop to Ajwain and Garlic due to better price realisation, however actual scenario likely to come after 15 to 20 days.
- As we expected buyers are active from lower prices level as festival season started.
- Farmers want to release their produce at higher prices only.
- Agriwatch estimates lower ending stocks for 2021-22 (marketing year) likely to support Coriander prices in the coming days.
- As per Agriwatch production estimate, Coriander production for 2021-22 (marketing year) is estimated at 342,435 MT (85 lakh bags) compared to last year's 352,316 MT (88 lakh bags, 1 bag = 40 kg).
