

RED CHILLI

Fundamentals:

Today's Update:

- Steady sentiment was witnessed in Red Chilli spot market on Saturday. Mostly market closed due to weekend.

Previous Update:

- Lower cold storage supply as stockists were holding their stocks supported the prices today. Good demand reported for cold storage stocks as buyers were fearing quality damage for new chilli crop which likely to start from January at Guntur market.
- ***As per Agriwatch estimates, Red Chilli all India production for 2022 is estimated at 14.66 lakh MT, revised after rainfall in Karnataka and virus affected in AP and Telangana , earlier estimates it was 15.93 lakh MT. Last year's production was 13.84 lakh MT.***
- In AP and Telangana, Red Chilli standing crop affected by virus, farmers are uprooting their crop. Actual damage percentage not clear till now, it will clear by next week.
- Due to heavy rainfall in Karnataka chilli growing regions likely to impact chilli standing crop. As per initial report, chilli crop may damage by 8 to 10% as per current situations. Farmers are fearful regarding chilli quality also. Next 10 -15 days is crucial.
- At Bedia (Madhya Pradesh) market, chilli prices reported up due to good demand. Buyers are interested only for good quality. Farmers are waiting for higher prices for releasing their produce.

TURMERIC

Fundamentals:

Today's Update:

- Steady to firm sentiment was witnessed in Turmeric spot markets on Saturday. Mostly market closed due to weekend.

Previous Update:

- Turmeric standing crop quality is reported well as of now. However, continuous rainfall and cloudy weather in growing regions in AP and Telangana may concern for Turmeric crop. As of now, no crop damage reported.
- As per AP agricultural data, current year final Turmeric sowing completed around 19,955 hectares, compared to last year 20,942 hectares. Normal in season 19,551 hectares.
- Currently, export demand reported lower due to increased shipping cost and some travel restriction in South Asian countries added the bearish sentiment.
- Agriwatch first advance estimates, Turmeric all India production for 2022 is estimated at 4.89 lakh MT. Last year's production was 4.46 lakh MT, up by 9.64% from last year.

BLACK PEPPER

Fundamentals:

Today's Update:

- Steady to firm sentiment witnessed in Black pepper spot market reported on Saturday.
- Vietnam Pepper price as on 4th December is in the range of 84,000 - 86,000 VND/kg. In the first days of December 2021, domestic pepper prices continuously fluctuated in opposite directions. In Dak Lak and Dak Nong provinces, today's pepper price is purchased at 85,000 VND/kg. In Gia Lai province, pepper price today is at 84,000 VND/kg. Meanwhile in Dong Nai, pepper price today is at 84,000 VND/kg, down 500 VND/kg. In Ba Ria - Vung Tau province, today's pepper price is at 86,000 VND/kg, down 500 VND/kg.
- According to the Department of Agricultural Product Processing and Market Development Vietnam, the export price of pepper has increased sharply, leading to a continuous increase in pepper prices in the domestic market. At the beginning of the year, the price of raw pepper was only at 50,000 VND/kg by mid-October, it surpassed the 90,000 VND/kg mark and is expected to increase by over 100,000 VND/kg by the end of the year.
- According to local sources, farmers in the Dong Nai province have begun to harvest pepper. The selling price at the garden is about 80,500 - 90,000 VND/kg, more than doubled compared to the region last year. The early harvest of this local pepper is a great advantage. Pepper farmers in the province make good profits. In early 2021, with more than 12,000 hectares, pepper is a crop that consumes a large area in Dong Nai, so it can be said that pepper is still the main crop of the province.

Previous Update:

- Continuous supply in the spot market put cap on prices from higher levels.
- Lower production expectations supported the domestic pepper prices. As per current situations, Agriwatch expected India's pepper productions for 2021-22 likely to go down by 8 to 10% compared to last year. Last year (2020-21) India's Pepper production was 62,000 MT.
- Agriwatch expects, black pepper prices likely to go up further around Rs.70,000 – 75,000/-qtl, as other producing countries new crop arrivals likely to start from March in Vietnam and expected lower production. So, domestic as well as international buyers are looking for Indian variety.
- Facing erratic climate in some areas such as Hassan, Chikkamagaluru and Kodagu, pepper growers in Karnataka state (India) are worried about a decrease in production this year. Continuous rain has increased the moisture in the soil, harming the growth of pepper plants.
- Vietnam pepper export from January to October 2021, was reported around 229,736 tons, compared to the same period in 2020, the export volume decreased by 5%. Progressively from January to October 2021, Vietnam imported 21,977 tons, of which black pepper reached 16,322 tons, white pepper reached 5,655 tons, compared to the same period in 2020, the import volume decreased by 29.1%.
- Due to lower supply from other producing countries in the global market, demand shifted to Indian market supported the domestic prices despite of higher production (2020-21).
- Fresh domestic demand in the spot market as winter season is approaching supported the prices.
- According to trade sources, purchasing power from major import markets such as Europe, US, China, Middle East and Africa... is still very large due to the strong increase in orders in the fourth quarter to meet year-end demand.
- Vietnam Pepper prices is expected to increase continue till the last months of the year because the pepper production of Vietnam as well as some major pepper producing countries such as Brazil and Indonesia are affected by climate change, so the annual output is expected to decrease continually.

JEERA (CUMIN SEED)

Fundamentals:
Today's Update:

- Steady to firm sentiment witnessed in Jeera Unjha spot market on Saturday.
- Spices Board, vide circular cited under referece 02 had notified about the forthcoming requirement of cleared pesticide test report issued by the competent authority for export of Cumin consignments from India to China. Further, in line with the requirements put in place by the General Administration of Customs, People's Republic of China {GACC}, it has been decided to include testing of pesticide residues in Cumin seeds under the mandatory regime of the Board, for export to China. Therefore, with effect from 13th December, 2021 exports of Cumin seeds to China will be permitted only with the Cleared analytical Report from Spices Board.
(For details - <http://www.indianspices.com/trade/trade-notifications/notificationdetails.html?id=272>)
- According to Gujarat Agri. Dept, as on 29th November, 171,459 hectares as compared to last year same period 302,637 hectares.
- Current year, Jeera sowing started in Rajasthan and Gujarat growing regions, as of now 40 to 45% sowing completed. Market participants are expecting lower sowing area as jeera prices are lower compared to other competitive crop like Coriander, Ajwain, Fennel etc.

Previous Update

- As festive demand started buyers reported active from lower prices level.
- Farmers and stockists are only interested to releasing their produce at higher prices level.
- As per the Agriwatch production estimate, Jeera production for 2021-22 (marketing period) is estimated at 391,801 MT (around 71 lakh bags each of 55 kg) compared to last year's 451,451 MT (82 lakh bags).

CARDAMOM

Fundamentals

Today's Update:

- Steady to firm sentiment witnessed in Cardamom spot market on Saturday.
- Third round picking activity started from November first week and it is about to end soon.

Previous Update:

- Due to recent flood in Kerala growing regions like Idukki affected the Cardamom plants. As per trade sources, around 10% crop loss reported till now.
- India's production for the coming marketing year 2021-22 (already started from August) expected better around 27,000 MT also put the cap on prices. Last year it was 23,000 MT.
- Cardamom planters were received higher prices last two years, therefore, they are taking care of their plants and favourable weather condition, is the main reason for expecting good crop in the coming year.
- As we expected earlier, the new Cardamom supply pressurizes the prices from higher levels due to increased production.

CORIANDER SEED

Fundamentals:
Today's Update:

- Steady sentiment witnessed in Coriander spot market on Saturday.

Previous Update:

- Current year, Coriander sowing slowly started in Rajasthan, MP and Gujarat growing regions, as of now 60 to 65% sowing completed.
- According to Gujarat Agri. Dept, as on 29th November, 86,634 hectares as compared to last year same period 93,000 hectares.
- As per Agriwatch initial sowing report, in MP Neemuch and Mandsour growing regions farmers are shifting Coriander crop to Ajwain and Garlic due to better price realisation, however actual scenario likely to come after 15 to 20 days.
- As we expected buyers are active from lower prices level as festival season started.
- Farmers want to release their produce at higher prices only.
- Agriwatch estimates lower ending stocks for 2021-22 (marketing year) likely to support Coriander prices in the coming days.
- As per Agriwatch production estimate, Coriander production for 2021-22 (marketing year) is estimated at 342,435 MT (85 lakh bags) compared to last year's 352,316 MT (88 lakh bags, 1 bag = 40 kg).
