BLACK PEPPER**Fundamentals:****Today's Update:**

- Steady to weak sentiment was witnessed in Black pepper spot market on Friday.
- Vietnam Pepper price continues to maintain the level of 78,000 - 81,000 VND/kg. Currently, Vietnam is increasing pepper imports from Brazil and Cambodia. Accordingly, today's pepper prices in Dak Lak and Dak Nong provinces were flat, trading at VND 79,800/kg. Gia Lai pepper price today 11/3 is buying at 78,000 VND/kg, stable compared to yesterday. Pepper price in Dong Nai today continued to move sideways, trading at VND 78,500/kg. Today's pepper price in Ba Ria - Vung Tau is still maintaining at 81,000 VND/kg - the highest pepper trading threshold in the country today. In Binh Phuoc, pepper price today traded at 80,000 VND/kg, levelled off compared to yesterday.
- Vietnam is currently increasing pepper imports from Brazil and Cambodia, in the context of Indonesian pepper exports decreasing. In 2021, to ensure the source of raw materials for processing, Vietnam's pepper industry imported materials from Cambodia 111% higher than in 2020.
- Pepper output of Cambodia and Vietnam border provinces is estimated at 30,000 tons/year.
- Brazil is the second largest pepper exporting country in the world after Vietnam, Brazil has stabilized an average export volume of 56,000 tons annually in the period 2012-2021. In January 2022, Brazilian pepper exports reached 7,946 tons, down 4% compared to the same period in 2021.

Previous Update:

- In Sri Lanka, domestic pepper prices increased for the third week in a row. The country's domestic black pepper increased 1%, from \$6,280/ton to \$6,374/ton.
- Indonesia's domestic and international pepper prices have been stable since mid-February because there were few transactions and only transactions between exporters and intermediaries. Specifically, the country's domestic black pepper is from 3,549 to 3,552 USD/ton; white pepper from 6,055 to 6,060 USD/ton; FOB black pepper price at Lampung port 4,216 – 4,219 USD/ton; FOB white pepper price at Pinang port is from 6,982 to 6,987 USD/ton.
- Malaysian black pepper prices recorded a positive trend this week, white pepper prices continued to be stable. Specifically, the domestic price of black pepper increased by 3%, from 4,172 to 4,312 USD/ton; domestic white pepper 6,164 – 6,172 USD/ton; FOB black pepper price at Kuching port increased 2%, from 5,760 to 5,900 USD/ton for 500g/l; FOB price of white pepper at Kuching port is at \$7,600/ton.
- As AgriWatch expected earlier, buyers were active from lower price levels as India's pepper production is estimated to be lower.
- As we expected earlier, Indian stockists and planters are holding their stocks on expectations of higher prices in coming days as pepper production expected lower current year.
- Currently black pepper import reported lower from Sri Lanka and Vietnam supporting the Indian domestic prices. New pepper supply continuing at Kochi spot market.
- Vietnam pepper production is expected to continue low due to the impact of climate change and objective causes such as fertilizer prices, drug prices, and rising labour costs. It is forecasted that in 2022, Vietnam's pepper output will decrease compared to 2021, which will cause pepper prices to increase in the near future.
- Lower production expectations supported the domestic pepper prices. As per current situations, AgriWatch expected India's pepper productions for 2021-22 likely to go down by 8 to 10% compared to last year. Last year (2020-21) India's Pepper production was 62,000 MT.
