- During Jan, 2022 to Apr, 2022 around 1,377 MT of black pepper has been exported from India. It was 1,572 MT during the same period last year, down by 12.40% this year.
- US pepper imports in the first months of this year continued their upward trend, despite the country's inflation being at a 40-year high and retail sales recording a decline as consumers cut back on spending.
- Vietnam Pepper prices as on 1st July traded at range of 69,000 - 72,000 VND/kg. Currently, two provinces Gia Lai and Dong Nai have the same purchasing price of 69,000 VND/kg. Next are the two provinces of Dak Lak and Dak Nong with the same transaction rate of 70,500 VND/kg. Similarly, pepper prices today in Binh Phuoc and Ba Ria - Vung Tau were also stable at 71,000 VND/kg and 72,000 VND/kg respectively.
- According to the forecast of the Import-Export Department - Ministry of Industry and Trade, the global pepper market will prosper again when a few Chinese cities have begun to lift the blockade.
- However, the world pepper price is still under pressure due to geopolitical tensions in Eastern Europe, leading to high energy prices and inflation.

Previous Update:

- According to US International Trade Commission (USITC), in the first 4 months of the year, the US imported a total of 28,671 tons of pepper, up 5.5% in volume. This shows that consumer demand for this spice in the US has not waned under the impact of high inflation.
- Notably, 74% of pepper imported to the US market in the first 4 months of this year was provided by Vietnamese suppliers, reaching 21,170 tons, a sharp increase of 25.3% over the same period last year. Meanwhile, US pepper imports from some other suppliers dropped sharply such as Brazil down 32.9%, Indonesia down 45.7%.
- As per current situations, AgriWatch expected India's pepper productions for 2021-22 likely to go down by 8 to 10% compared to last year. Last year (2020-21) India's Pepper production was 62,000 MT.
