

Sugar & Gur Domestic & International Fundamentals

- Steady sentiments recorded in key markets of sugar on Wednesday.
- Sudan was the top importers of Indian Sugar in the month of January followed by Iran and Dubai. On the other hand, highest average FOB quotes received from Jordan and Iran. Total sugar export in the month of Jan-14 is approx 2.94 lakh tonnes.
- According to industry body Indian Sugar Mills Association (ISMA), India has exported about 8.5 lakh tonnes of sugar including 4.5 lakh tonnes of raw sugar till January 31, 2014. Country has produced about 8 lakh tons of raw sugar till January 31, 2014 and expected to produce another 10 lakh tons of raw sugar in remaining months of current season.
- Indian closing sugar stocks are forecast to be 9.8 million tonnes at the end of September 2014, up from 9.3 million tonnes as of Oct. 1, 2013 as per by ISMA.
- Agriculture Minister Sharad Pawar on Wednesday managed to get Cabinet clearance to provide subsidy for export of four million tonnes of raw sugar, this will be a bigger benefit for sugar millers in Maharashtra and UP among other states and help them pay arrears to sugarcane farmers.
- Brazil's main center-south region's cumulative sugar output for the season stood at 34.28 million tonnes at the end of January, barely changed from a month earlier, as mills conducted maintenance for the new season.
- Brazil's Sugar production remains steady with last season's output of 34.08 million tonnes.
- Approx 1500 bags of gur arrived at Muzaffarpur market.

Outlook: Improved buying interest at lower level, expectation of higher raw sugar export subsidy (around Rs 3500 per T) and drought like condition in Brazil basically helped market to recover at recent low. Market is likely to trade steady to slightly firm in the near term as sentiments in the market point towards more firmness.
