Sugar & Gur Domestic & International Fundamentals

- Steady to firm sentiments recorded on key markets amid closing of future on Saturday.
- A rake business loaded with sugar has been reported from Belgaum to Delhi at FOR 3315 per quintal as reported.
- Govt. might increase ethanol blending into petrol to 15% from 5% currently. It is notable that if decision implemented than it would help mills to cover losses and able to make pending payments to farmers. Apart from it, govt also likely to consider industry demand to increase in import duty upto 40% from existing 15%.
- India is offering 100 ICUMSA sugar at \$500-510 per ton FOB basis, according to London based sugar trader.
- Consecutive fall in sugar prices can be seen as rumors of ban on essential commodities like Wheat, Sugar, Chana etc from futures platforms spreads fear in the market.
- Farmers in UP are sowing less cane for 2014-15 season due to delay in cane payment. However, situation is totally opposite in case of Maharashtra and Karnataka as reported.
- Gur prices improved today in key benchmark market Muzaffar nagar due to good demand. In addition to it, fresh arrivals are also not coming which improve the prices.
- Total around 1061000 bags of 40 kg each of gur stored in warehouses presently which are lower compared to 1233000 bags stored last year at same period in warehouses. Out of total gur stocks, 560000 bags of Chaku, 61000 bags of Rascut, 202000 bags of Papdi and 23000 bags of Khurpa gur stored in cold storages. It is notable that lower gur stock stored in cold storages would support the prices of gur in the medium term.

Outlook: Sugar prices are presently in a profit booking state. However, overall sentiments remained bullish for medium term due to lower production. Sugar may trade steady in the short term.
