

## Sugar & Gur Domestic & International Fundamentals

- Market sentiments traded between weaker to normal zone with price falling down on Monday.
- Karnataka govt. had given its approval for constitution of an expert committee, called Sugarcane Control Board under the new amended Karnataka Sugarcane (Regulation of Purchase and Supply) Act, 2014. The amended act is expected to ensure better transparency in sale and purchase of sugarcane as the newly constituted committee will calculate actual realization by millers' vis-à-vis report submitted by them.
- As per the new estimates by ISMA; sugar production in the country is likely to range in between 250-255 lakh tons for 2014-15. However, a consolidated figure will be released soon, after making careful evaluation of monsoonal impact on the crop.
- Brazilian sugar production continued to gear up high amidst favorable dry weather condition prevailing in the country. Reportedly, Brazil had produced about 20.93 million tons of sugar from 372.7 million tons of cane till 31<sup>st</sup> August, 2014.
- Total around 536000 bags of gur stored in cold storages till 15<sup>th</sup> Sep, 2014 lower compared to 671000 bags at same period last year.
- Gur prices witness artificial firmness at present and likely move down in the coming days due to good stock availability in the Maharashtra markets. It is notable that cane has diverted more towards gur production in Pune and Sangli area this year. In addition to it, market participants is expecting early arrivals of gur for the next marketing year which drive the prices southwards in the medium term.

**Outlook:** Despite undergoing a hike in import duty, sugar prices fell down amidst abundant stock availability and uninterrupted supply within the nation.
