

Sugar & Gur Domestic & International Fundamentals

- Steady to weak sentiments recorded in key markets owing to arrival pressure and weak demand.
- Tenders are invited for local purchase of sugar by ARMY SERVICE CORPS (ASC). Opening date for tenders has been fixed at 12th Dec, 2014.
- The govt. of India gave its approval for procurement of ethanol at a rate of Rs 48.50 - 49.50 per liter for blending with petrol. The move is likely to benefit both the millers and cane farmers in the country who can now demand more money for their product.
- Sugar trade likely to get affected due to upcoming Christmas festival.
- India produced 17.81 lakh tons of sugar till 3rd Nov, 2014 which was 56% higher than the quantity produced during the same period last year. Similarly, the country also saw an upsurge in the number of crushing units from 262 (in 2013) to 287 (in 2014) for the same duration.
- 31 sugar mills in Karnataka churned around 3.36 lakh tons of sugar this year (as on 30th Nov, 2014) compared to 3.28 lakh tons of sugar a year back. Crushing had also started recently in states like Gujarat which had produced around 1.6 lakh tons of sugar till 30th Nov, 2014.
- Cane crushing started in U.P and the state had churned around 196.86 lakh quintal of sugarcane to produce 16.91 lakh quintal of sugar till 02nd Dec, 2014. Not only this, the cane recovery rate in U.P had also improved from 7.48% in 2013 to 8.59% in 2014.
- Gur prices surged up today in key benchmark market owing to lower arrivals compared to prior day.

Outlook: Ample supply, subdued demand and falling crude prices mainly kept pressure on sugar prices. However, the situation is expected to improve soon as Brazil is almost done with the cane crushing and is likely to divert the remaining cane towards ethanol production.
