- Tenders are invited for supply of rice and sugar by THE KERALA STATE CIVIL SUPPLIES CORPORATION LIMITED. Opening date for tenders has been fixed at 06th January, 2015.
- An early start of crushing this season (Oct, 2014- Sep, 2015); particularly in Uttar Pradesh led India to produce 74.61 lakh tons of sugar (till 31st Dec, 2014) which was 27.26% higher than the figure achieved last year during the same period.
- Maharashtra crushed around 312.7 Lakh MT of sugarcane to produce 32.75 lakh tons of sugar by 31st Dec, 2014 which was 46.5% higher than the sugar produced during the same period last year. With this, the average cane recovery rate in Maharashtra rose to 10.47% compared to 10.22% last year.
- Improved cane recovery coupled with an early start up of mills led Uttar Pradesh, the largest cane producer; to produce 17.21 Lakh tons of sugar by 31st December, 2014 which was 53.80% higher than the sugar crushed during same period in 2013-14. Notably, the state churned around 186 lakh tons of sugarcane till date in 2014-15 as against 128 lakh tons of cane last year.
- A falling cane acreage in Tamil Nadu this year (2014-15) resulted into lower sugar production in the state wherein only 15 sugar mills participated in the crushing operation (till 31<sup>st</sup> December, 2014) to produce 0.65 lakh tons of sugar as against 35 sugar mills last year who produced 1.62 lakh tons of sugar during the same period.
- Sugar production in Karnataka fell marginally by 2.76% this year wherein the state produced 12 lakh tons of sugar up to 31st December, 2014 compared to 12.34 lakh tons last year during the same period. At the same time 11 sugar mills in Bihar produced 1.80 lakh tons of sugar this season (up to 31st December, 2014), which was almost double than the production made by state last year during the same period.

Outlook: Sugar prices are currently trading low and are expected to decline further as the country is going through its peak production time that will last for some time from now.
