GRIWATCH

19th January, 2015

Sugar & Gur Domestic & International Fundamentals

- CCEA announced a Fair Remunerative Price (FRP) of Rs 230 per quintal for purchase of sugarcane in 2015-16 (which is linked to a basic recovery rate of 9.5per cent) which is subjected to a premium of Rs 2.42 per quintal for every 0.1 per cent increase above the level of 9.5 per cent recovery. For 2014-15 the FRP fixed has been Rs 220/ quintal which was also Rs 10 more than the FRP decided in 2013-14.
- Sugar production in India for 2014-15(Oct Sep) lies at 103 lakh tons (till 15th Jan, 2015) which was 19.08% higher than the figure achieved during the same period last year. Reportedly, 494 sugar mills had participated in the crushing process this year compared to 486 mills last year.
- Maharashtra churned around 43 lakh tons of sugar this season (up to 15th Jan, 2015) compared to 31 lakh tons of production last year for the same duration. About 173 sugar mills in the states had actively participated in the crushing operation till date compared to 154 mills last year.
- Sugar production in Uttar Pradesh rose by 26.58% from 19.75 lakh tons in 2013-14 (1st Oct- 15th Jan) to 25 lakh tons in 2014-15 (1st Oct- 15th Jan). The number of sugar mills that operated during the period was 118 compared to 119 last year.
- A production surge of 8.11% had been seen in Andhra Pradesh & Telengana which produced 4.00 lakh tons of sugar in 2014-15 (till 15th Jan) compared to 3.70 lakh tons during the same interval last year. On the other hand, Bihar produced around 2.40 lakh tons of sugar till 15th Jan, 2015 which was 50% higher than the production made by it last year.
- An y-o-y comparison for sugar production in Karnataka remained unchanged as the state produced 17 lakh tons of sugar in 2014-15 (up to 15th January, 2015) which is almost same as the production made last year during the same interval.
- Lesser number of mills invoked lower sugar production this year (2014-15) in Tamil Nadu, where only 20 sugar mills participated in the crushing operation leading to a mere production of 1.10 lakh tons ((till 15th January, 2015)) as against 2.80 lakh ton last year ((till 15th January, 2014).

Outlook: Sugar prices are currently trading low and are expected to decline further as the country is going through its peak production time that will last for some time from now.
