

Daily Sugar & Gur Fundamental Report

22nd January, 2015

Change

Sugar & Gur Domestic & International Fundamentals

- A meeting with CCEA has been scheduled for Wednesday in which food ministry will discuss issues regarding granting of flexibility to the states for fixing their respective retail price of sugar under PDS.
- Owing to higher international prices (both for raw and refined sugar); India's sugar import fell drastically down from 49.5 thousand tons to 18 thousand tons for the week ending 18th January, 2015. On the other hand, Indian sugar export rose up by 81% from 23.6 thousand tons to 42.8 thousand tons during the same period.
- In a big relief to the millers in state, the Maharashtra govt. had removed a 5% purchase tax on procurement of sugarcane for session 2013-14. The decision had been taken after carefully considering the indebtedness position of the millers in the state.
- Sugar production in India for 2014-15(Oct Sep) lies at 103 lakh tons (till 15th Jan, 2015) which was 19.08% higher than the figure achieved during the same period last year. Reportedly, 494 sugar mills had participated in the crushing process this year compared to 486 mills last year.
- Maharashtra churned around 43 lakh tons of sugar this season (up to 15th Jan, 2015) compared to 31 lakh tons of production last year for the same duration. About 173 sugar mills in the states had actively participated in the crushing operation till date compared to 154 mills last year.
- Sugar production in Uttar Pradesh rose by 26.58% from 19.75 lakh tons in 2013-14 (1st Oct- 15th Jan) to 25 lakh tons in 2014-15 (1st Oct- 15th Jan). The number of sugar mills that operated during the period was 118 compared to 119 last year.
- An y-o-y comparison for sugar production in Karnataka remained unchanged as the state produced 17 lakh tons of sugar in 2014-15 (up to 15th January, 2015) which is almost same as the production made last year during the same interval.

NCDEX Gur Future Quotes:

Outlook: Sugar prices are currently trading low and are expected to decline further as the country is going through its peak production time that will last for some time from now.

an ough to pour production and this det for come and men now.
