

Daily Sugar & Gur Fundamental Report

28th January, 2015

Sugar & Gur Domestic & International Fundamentals

- Tenders are invited for purchase of Dal, Sugar, Refined Oil & Cheese, Tea & MM Food fornightly by SUPPLY DEPOT AHMEDABAD Opening date for tender has been fixed at 30th January, 2015.
- Brazilian centre south region had churned around 28 thousand tons of sugar in the first two weeks of January (2015) which was 76.2% less than the production made in previous two weeks of December. However, an y-o-y comparison shows that the region had produced mere 8 thousand tons of sugar during the same period last year in 2014.
- The govt. in Brazil is planning to raise percentage share of ethanol in blending with gasoline from 25 per cent at present to 27.5 per cent. However, it also need to consider the probable ill effects of the policy to automobile sector as a higher mix of ethanol deteriorates motor performance of vehicles.
- As an outcome for the meeting held on Wednesday, CCEA had agreed upon the states' demand for granting flexibility in fixation of sugar retail issue prices (RIP) under PDS. Notably, the RIP of sugar under PDS had been last updated in 2002 at Rs13.50/kg and has been continuing the same so far. However, as per the new decision made by govt., the sugar subsidy rate for state purchase has now been modified to Rs 18.50/kg.
- A positive breakthrough is expected in Brazilian ethanol industry where the govt. announced a fuel tax, called Cide on gasoline and diesel that makes the alternative fuel, ethanol more competitive in comparison. Reportedly, the tax is expected to get enforced with effect from Feb 1, 2015 and could raise the price of gasoline and diesel by 0.22 reais and 0.15 reais per liter respectively. Meanwhile, a wider diversification of domestic cane towards ethanol production could also support the cash starved sugar industry to bloom well.

Outlook: Sugar prices are expected to improve as the major producer Brazil is about to enter its interharvest period soon.
