

Sugar & Gur Domestic & International Fundamentals

- The Food Ministry of India chaired by Mr. Ram Vilas Paswan had approved the proposal for granting raw sugar export subsidy at a rate of Rs 4000/tons up to the limit of 1.4 million tons of sugar. However, the proposal yet needs to get sanctioned from the Union Cabinet after only which the scheme will be truly implemented
- India exported 27.9 thousand tons of sugar last week (ending on 23rd January, 2015) which was 35% lower than the exports made in the previous week. On the other hand, the country imported 13.3 thousand tons of sugar (mainly raw) for the same duration. With this the country's total sugar export/import rises to 1.09/0.63 lakh tons for the month of January (up to 23rd January, 2015).
- Tenders are invited by IHQ OF MOD (ARMY) for supply of sugar M 30. Opening date for tender has been fixed at 29th January, 2015.
- Indian gur prices shoot up this month amid supply disruption in major gur market i.e. Muzaffarnagar due to intermittent rainfall, dense fog and chilly weather. However, the country is expected to produce 9 million tons of gur this year compared to 8.5 million tons last year.
- Brazilian centre south region had churned around 28 thousand tons of sugar in the first two weeks of January (2015) which was 76.2% less than the production made in previous two weeks of December. However, an y-o-y comparison shows that the region had produced mere 8 thousand tons of sugar during the same period last year in 2014.
- The govt. in Brazil is planning to raise percentage share of ethanol in blending with gasoline from 25 per cent at present to 27.5 per cent. However, it also need to consider the probable ill effects of the policy to automobile sector as a higher mix of ethanol deteriorates motor performance of vehicles.

Outlook: Sugar prices are expected to improve as the major producer Brazil is about to enter its interharvest period soon.
