

Daily Sugar & Gur Fundamental Report

20th February, 2015

Sugar & Gur Domestic & International Fundamentals

- A cabinet meeting is scheduled on Thursday, in which the govt. could implement raw sugar export subsidy at a tone of Rs 4,000/ton up to a limit of 1.4 million tons.
- Indian sugar millers particularly in western and southern India continued to make distress sale of their white refined sugar amid delay in govt. announcing the raw sugar export subsidy for this season.
- Sugar market condition worsens in Tamil Nadu as the neighboring state Karnataka, dumped its excessive production on to the state leading to a huge accumulation of buildup stock.
- The widening divergence between the production cost and revenue caused the Indian sugar industry to accumulate pending cane arrears worth Rs 12,300 crore for 2014-15 (1st Oct, 2014-15th Feb, 2015). Notably the sugar industry faced a double stroke off of higher sugarcane FRP on one hand and a lower sugar prices on the other which are the primary reason for the non-payment.
- Sugar production declined 37.50% in Tamil Nadu which produced 3.25 lakh tons of sugar in 2014-15 (1st Oct, 2014- 15th Feb, 2015) compared to 5.2 lakh tons in 2013-14 (1st Oct, 2013- 15th Feb, 2014).
- 518 sugar mills in India had produced 167.08 lakh tons of sugar till 15th Feb, 2015 for MY 2014-15 which was 15.01% higher than the production made last year during the same interval.
- The largest sugar producer, Maharashtra had churned around 65 lakh tons of sugar this season (till 15th Feb, 2015) compared to 49.8 lakh tons of sugar last year during the same corresponding period. The state also saw a surge in number of sugar mills operating from 146 last year (till 15th Feb, 2014) to 178 mills (till 15th Feb, 2015) this year.

Outlook: Sugar prices are expected to improve as the major producer Brazil had entered the intra harvest period.
