

Daily Sugar & Gur Fundamental Report

30th March. 2015

Sugar & Gur Domestic & International Fundamentals

- Sugar prices are again heading lower due to higher production estimates overseas.
- Brazilian sugar mills had started their cane crushing early this season (1st Apr, 2015- 31st Mar., 2016) and had crushed around 1.24 million tons of cane (thereby churning 23.2 thousand tons of sugar) by 15th March, 2015. Reportedly, 20 Brazilian mills had participated in the crushing operation so far.
- The International Sugar Organization (ISO) expects global sugar deficit of two million tons in 2015-16 (1st Oct- 30th Sep) as against a less than one million tons sugar surplus forecast for current season, 2014-15 (1st Oct- 30th Sep).
- Market expert, F.O.Licht, predicted Brazilian Centre South region to crush 580 million tons of sugarcane in 2015-16 (1st Apr. 2015 – 31st Mar. 2016) to produce around 31.8 million tons of sugar by the season
- The Indonesian govt. had raised raw sugar import permit from 6.7 lakh tons (in first quarter of 2015) to 9.5 lakh tons for the second quarter of the year. Notably, the step has been initiated to meet huge domestic demand arising in the month of June and July due to the festivities like Ramadhan and Idul Fitr.
- The Thailand govt. is planning to seek policy change in Cane and Sugar Act, which confined only one sugar factory to be located within 80kms of range within the country. Thus, the step is expected to enhance sugar production capacity of Thailand by facilitating more sugar mills within the nation...

Outlook: Sugar prices are expected to improve as India will finish its crushing operation soon that could reduce sugar surplus in the market
