Daily Sugar & Gur Fundamental Report 29th April, 2015

Sugar & Gur Domestic & International Fundamentals

- As per a report issued by U.S. Department of Agriculture, India is expected to produce 29 MMT of sugar in MY 2015-16 (1st Oct, 2015 – 30th Sep, 2016) and is likely to emerge as a net sugar exporter during the period.
- The Australian Bureau of Meteorology signaled the climatic indicators pointing towards the possibility of an expected El Nino this year. Notably, an El Nino if occurred could hamper sugar production worldwide causing excessive rainfall in Southern America while no or minimal rains in Asia.
- Sugar millers in Haryana owe Rs 900 crore to the local cane farmers in the state as the pending cane arrears of their crops.
- To ease out the pain of falling sugar prices, the central govt. is likely to purchase 25 27 lakh tons of sugar (at a rate of Rs 3100 per quintal) from local sugar millers in the country. In fact, about 11 lakh tons of sugar is expected to be purchased from Maharashtra, which is making record sugar production this time.
- Due to various trade restrictions imparted by govt., Indonesia is expected to import only 2.95 million tons
 of raw sugar in 2014-15. While, the country is forecasted to produce around 2.1 million tons of plantation
 white sugar during the same period.

Outlook: Sugar prices are expected to improve as India will finish its crushing operation soon that could reduce sugar surplus in the market
