

Sugar & Gur Domestic & International Fundamentals

- Sugar prices traded steady to weak amid ample sugar production in the country.
- India's sugar export rose 90% from last week as the country exported 86.1 thousand tons of sugar for the week ending 28th Jun, 2015 compared to 45.3 thousand tons sugar the previous week.
- As per the latest data released by Brazil's Trade Ministry, the country exported 1.50 MT of raw sugar in June, 2015 which was 0.79% higher than the export made last year in June, 2014.
- In a bid to support local cane millers, the Brazilian govt. had raised import tariff on ethanol from 9.25 per cent at present to 11.75 per cent. The step is likely to boost the domestic ethanol production while combating the mass shipment from largest ethanol producer U.S.
- As per the UNICA report, Brazil's Centre South region had churned around 6.75 MT of sugar in 2015-16 (1st Apr, 2015 – 15th Jun, 2015) which was 13.02% lower than the sugar produced last year during the same interval.
- The Telengana govt. is expected to impose entry tax on sugar import as the neighboring states such as Karnataka, Maharashtra and Tamil Nadu are dumping their excessive sugar onto the state leading to a further fall in local sugar prices.
- The Indonesian Sugar Association forecasted the country's total sugar (white) production in between 2.45-2.60 million tons for 2015-16 which was last recorded at 2.58 million tons in 2014-15.

Outlook: Sugar prices are expected to improve a bit due to summer seasonal demand while an excessive sugar surplus will cap the gain.
