

Sugar & Gur Domestic & International Fundamentals

Recent updates

- According to the official figures, sugarcane has been sown on 49.95 lakh hectares as on October 06, 2017 across the country compared to 45.64 lakh hectares during the same period previous year.

Previous updates

- The Cane Control Order, 1966, provides for payment of interest by sugar mills to farmers at 15 per cent per annum, if they do not make cane payment within 15 days of buying the cane. However, this was not implemented by any state. This was implemented by Uttar Pradesh in 2016 -17. Following this, sugar mills from Uttar Pradesh have paid Rs 342 crore as interest on delayed cane payment in 2016-17, their counterparts in Maharashtra will have to pay interest on delayed cane payment from the 2017-18 crushing season.
- According to Archer consulting, Brazil's sugar output is expected at 35.51 million metric tonnes in 2018/19.
- According to USDA attache report, the Australian sugar cane crush for 2017/18 at 34 million MT, up 6 percent compared to the official forecast. Sugar production is forecast at 4.8 million MT in 2017/18 which is same as the official forecast. The harvested area for sugar cane is revised down to 400,000 hectares for 2017/18, due to lower price and competition from other crops.
