

Sugar & Gur Domestic & International Fundamentals**Recent updates.**

- According to Avinash Verma, Director-General of the Indian Sugar Mills' Association (ISMA), the ex-mill price of sugar in Uttar Pradesh, which had increased by nearly 13 per cent to Rs 35 a kg in the past ten days.
- Gur (jaggery) dhayya and shakkar prices drifted down by Rs 100 per quintal at the wholesale market in the national capital today following ample position of ready stocks amid limited offtake.
- Prices of both varieties of sugar fell further at the Vashi wholesale market following reduced demand from stockists and bulk consumers. Small sugar (S-30) went-down by Rs 4/18 per quintal to Rs 3,196/3,262 from Wednesdays closing level of Rs 3,200/3,280. Medium sugar (M-30) dropped by Rs 4/30 per quintal to Rs 3,286/3,460 as against Rs 3,290/3,490.

Previous updates.

- Maharashtra State Cooperative Bank has increased valuation of sugar by Rs 130 per quintal to Rs 3,100 per quintal. This will help sugar mills borrow more from banks and make payments to cane farmers.
- Sugar prices had jumped by 10-12% following twin government decisions of increasing import duty and capping mill level sugar sales two weeks ago, but they have stagnated or declined slightly in different producing markets of the country in the last few days.
- In MY 2017/2018, Ukraine produced 2,14 million tonnes of sugar, which is 6,5% more than last year's 2,01 million tonnes.
- Sugar prices ruled steady in Mumbai after gaining Rs 20-50 a quintal last week as per quality. Due to Shivaji Maharaj Jayanti, Vashi market remained closed so there were no local dispatches. Naka and mill tender rates were under reselling pressure and remained range-bound.
- The prices at select mills declined on excess supplies from mills on restricted offtake and prices at other mills soared on better offtake scenario. So, the prices of sugar mill gate traded on a mixed note at the wholesale market in the Delhi region today. The decline in prices of select mills resulted due to incessant supplies from mills along with reduced offtake by stockists and bulk consumers.
- Uttar Pradesh has produced a record 62.71 lakh tones of sugar during the current sugarcane crushing season with a recovery of 10.35 per cent- the highest in recent years. As per details, all 119 sugar mills were functioning in the state while during the last crushing season 116 mills were in operation till this time.
- Sugar prices soared at the wholesale market in the national capital during the week under review on the back of increased off take by bulk consumers amid tight supplies from mills and notched up gains of up to Rs 300 per quintal.
- India's Sugar production estimate has been recently revised upwards by 4 per cent to 26.1 million tonnes (MT) in the current 2017-18 marketing year (October-September) as against 20.3 MT in 2016-17, as per industry data. The consumption is pegged at 25 MT for this year.
