

**Sugar & Gur Domestic & International Fundamentals****Recent updates.**

- Sugar prices dragged down by Rs 80 per quintal at the wholesale market in the national capital following bumper stocks on steady inflow of supplies amid weak demand.
- Ethiopian Sugar Corporation (ESC) bought 100,000 metric tons of sugar this past November. A few months later, in February, ESC announced its intention to buy an additional 100,000 metric tons. Bids for this tender are due March 20 and the shipment delivery date is June - August.

**Previous updates.**

- The sugar industry expects the government to take a call this week to scrap export duty on the commodity in the wake of forecast of a record output for the second consecutive year.
- The ISMA said that the yield per hectare was higher in Maharashtra and north Karnataka this year. Uttar Pradesh, Maharashtra and Karnataka were expected to produce 105.13 lakh tonnes, 101.3 lakh tonnes and 35.45 lakh tonnes respectively. Till the end of February, total sugar production was 230.5 lakh tonnes and 479 mills continued to crush cane. Hence, the total production estimate had been revised upwards.
- U.S. cane sugar production is increased 10,000 short tons, raw value (STRV) to 4.021 million based on a processor report from Texas. Re-export imports for 2017/18 are increased by 150,000 STRV to 400,000 based on pace to date. Exports for 2017/18 are increased by 50,000 STRV to 150,000. Ending stocks for 2017/18 are residually projected at 1.953 million STRV, implying a stocks-to-use ratio of 15.5 percent, up from last month's 14.6 percent.
- Mexico sugar production for 2017/18 is decreased by 50,000 metric tons (MT) to 6.050 million due to lower sugarcane area. Imports are increased 35,000 MT to 170,000 based on increased pace to date reported by the Comité Nacional Para El Desarrollo Sustentable de la Caña de Azúcar (CONADESUCA) through the end of January 2018.
- Sugar production of 29.5 million tons in the current season will be 4.5 million tonnes higher than the 25 million tonnes of estimated domestic consumption.
- Larger sugar production in the current sugar season as also expected in the next season (2018-19), there is a need to be export at least 1.5 million tonne in the current season itself over the next 6-7 months. This will give extra cash flows to the sugar mills, which in turn, will improve cane price payments to the sugarcane farmers and will reduce the cane price arrears, which is accumulating very fast to uncomfortable levels, said Indian Sugar Mills' Association (ISMA) in a release on last week. And Sources said that Sugar mills owed nearly Rs 14,000 crore to sugarcane farmers at the end of January in the ongoing marketing season.
- 522 sugar mills across the country were crushing sugarcane in the current season. As on 28<sup>th</sup> February 2018, 479 sugar mills were still working i.e., 43 sugar mills have shut crushing operations in the current season.
- Production among major sates, Uttar Pradesh has produced 73.95 lac tons whereas Maharashtra has produced 84.24 lac tons and Karnataka has produced 33.44 lac tons till 28<sup>th</sup> February 2018. Sugar mills have still not started closing in Uttar Pradesh, but have started shutting their operations in Maharashtra and Karnataka.
