

**Sugar & Gur Domestic & International Fundamentals****Recent updates.**

- Sugar prices dipped by Rs 15 per quintal at the wholesale market in the national capital on today following bumper output amid weak demand.

**Previous updates.**

- Uttar Pradesh has clocked record sugar production of almost 9 million tonnes (mt) in the ongoing crushing season even as sugarcane arrears have piled up to Rs 96 billion. So far, the collective payment liabilities of all the 119 sugar mills in UP have added up to a little over Rs 267 billion, against which mills had paid nearly Rs 171 billion, thus leaving a massive Rs 96 billion as dues.
- Brazil's center-south sugarcane crush for the 2017-18 harvest was 1.79% down from April 2017 to March 16, 2018, compared to the same period a year ago, totaling 588.470 million tons, said the Union of Sugarcane Industry (Unica).
- Crushers in Brazil's Centre South, responsible for some 90% of domestic cane output, processed 3.28m tonnes of the crop
- The sugar market continued its weak trend on selling pressure. Prices at Vashi declined by Rs 10-20 as Maharashtra's mills sold commodity at Rs 10-20 lower previous adding pressure on spot market. *Naka* rates were also down by Rs 20.
- According to the representatives of the industry, sugar production of Maharashtra has already recorded 46% rise as compared to last year. Furthermore, 147 mills are still crushing cane to produce more sugar.
- According to trade sources, the abolition of sugar export tax would help push out just 100,000-150,000 tonnes of sugar mostly to neighbouring Bangladesh and Nepal as everywhere else global prices are weak.
- Domestically, ex-mill prices in most places have dropped to around Rs 2,900-3,000 per quintal, while the total cost of production is somewhere around Rs 3,000-3,500 per quintal. This means that for every quintal of sugarcane crushed, the mills are losing around Rs 400-500.
- The government on Tuesday scrapped the 20% export duty on sugar in a bid to boost overseas sales of the commodity and lift its domestic price.
- According to ISMA, Sugarcane mills in the country have produced 25.806 million tonne of sugar during the current season up to March 15, 2018, which is 8.256 million tonne more than the last year's production of 17.55 million tonne.
- It is important to note that out of 523 sugar mills in the country, 106 mills have already shut their operations — 31 in Maharashtra, 48 in Karnataka, 5 in Uttar Pradesh, 9 in Tamil Nadu, 7 in Andhra Pradesh and Telangana, and 6 mills in other states —, said Indian Sugar Mills' Association (ISMA) in a release on Monday.
- Sugar mills in Maharashtra have produced 9.383 mt, UP produced 8.439 mt till March 15, 2018. Karnataka produced 3.510 mt of sugar. The mills in other states have a combined production of 4.474 mt (Gujarat 9.10 lakh tonne; Bihar 5.80 LT; Haryana 5.25 LT; Punjab 5.80 LT; AP & Telangana 6.40 LT; Tamil Nadu 4.20 LT; Uttarakhand 3.25 LT; Madhya Pradesh & Chhattisgarh 4.50 LT) till March 15.
