

Sugar & Gur Domestic & International Fundamentals**Recent Update:**

- ***The prices of M-30 and S -30 grades of sugar rates remained steady in Kolhapur sugar market today at Rs 2925/2900 per quintal respectively. Indian sugar market ruled flat on eased supply and demand. Heavy carryover stocks, higher production and limited domestic demand kept the market under pressure.***
- ***Sugar mills in Brazil's Centre/South (CS) crushed 12.6 mln tonnes of sugarcane in the first half of December, bringing the total crush since the official start on April 1 to 556.851 mln tonnes, down 4.1% from 580.684 mln crushed by the same time in 2017/18, Unica reported in its press conference for the 2018/19 harvest. Thailand's 2018/19 cane crush continues to ramp up with daily crushing volumes exceeding 1 mln tonnes in mid-December.***
- ***Indonesia has set the raw sugar import quota for industrial use for 2019 at 2.83 mln tonnes, according to Oke Nurwan, director general of international trade at the Trade Ministry.***

Weather Forecast for tomorrow:

- ***During the next 24 hours, as the system over southern parts comes closer to Indian Coast, rainfall activities will intensify over Coastal Tamil Nadu. Moderate rain is likely over South Tamil Nadu with isolated heavy over some parts. Light rain and thundershowers will occur over Andhra Pradesh, South Karnataka, Kerala and rest of Tamil Nadu. Light rain and thundershower will affect north eastern states of the country..***

Previous Updates:

- ***15 sugar mills in the Kolhapur division of Maharashtra have been issued notices by the deputy district registrar for their failure to pay fair and remunerative price (FRP) dues to farmers for the season of 2018-19. According to the officials, millers have paid up only Rs 360.36 crore to farmers till December 15 and the total payable FRP was to the tune of Rs 2,497.41 crore by the end of November.***
- ***So far, India has exported only 2.46 lakh tonnes of sugar for this season. If the current trend continues, achieving 5 million tonnes of MIEQ export looks difficult. Sugar factories face several headwinds for executing export orders. Apart from depreciating Indian rupee making thereby exports less remunerative, depreciation in the Brazilian Lira coupled with sustained fall in global prices made sugar shipment from India less remunerative. With the government releases subsidy amount at the end of the season, sugar mills fear blockage of working capital for the entire year on which they pay interest to lenders.***
- ***Sugar prices have fallen by over 11 per cent in the benchmarks Nybot and Liffe exchanges during the last two months. Also, the rupee appreciated and Brazilian Lira depreciated during the last two months to sugar export from Brazil more competitive. Despite these odds sugar mills are expected to start dispatches by the end of December. Sugar prices in Nybot declined by 11.44 per cent to trade currently at \$12.30 oz per pound. In the benchmark Liffe market, near month sugar contract was quoted \$339.70 per tonne, 10.37 per cent lower than \$379 per tonne traded two months ago.***

- **Sugar production has increased by 2.1 per cent to 7.05 million tonnes till December 15 of the current marketing year. Mills had produced 6.9 million tonnes of sugar in the same period of 2017-18 marketing year.** India is likely to produce 31.5 million tonnes of sugar in 2018-19 marketing year, slightly lower than 32.5 million tonnes last year, according to ISMA forecast. Sugar consumption is estimated at 26 million tonnes in 2018-19.
- **Production in Maharashtra, the country's largest sugar producing state, rose to 2.9 million tonnes till December 15 of this year, as against 2.57 million tonnes in the same period last year.** About 176 mills were in operation in the state and the average sugar recovery achieved so far was 10.18 per cent as compared to 10.10 per cent in the year-ago. Whereas production in Uttar Pradesh, the country's second largest producing state, remained lower at 1.89 million tonnes so far when compared with 2.33 million tonnes in the year-ago. However the production in Karnataka, the country's third largest sugar producing state, stood higher at 1.39 million tonnes as against 1.12 million tonnes in the year-ago. The total output of other States, including Andhra Pradesh, Telangana, Tamil Nadu and Bihar, is 4.5 lt.
- **Indian sugar industry is making efforts to export raw sugar to South Korea during 2018-19 sugar season.** The industry will undertake further discussions and talks with the sugar refineries in South Korea to pursue the matter further so that sugar exports may take place from India to South Korea. South Korea imports around 1.5 million tonnes of raw sugar annually.

Weekly Outlook:

- **Indian sugar prices are likely to show support in the coming days on the back of likely improvement in the retail off take for Christmas and New Year.** This was despite trade expectations that the release quota of 1.9 million tonnes for Dec was slightly lower than probable demand.
