

**Sugar & Gur Domestic & International Fundamentals****Recent Update:**

**March NY world sugar #11 (SBH19) on Wednesday closed down -0.20 (-1.55%) and March ICE London white sugar (SWH19) closed down -3.60 (-1.04%).** Sugar prices moved lower Thursday on weakness in crude oil prices, which undercuts ethanol and may prompt Brazil's sugar mills to divert more cane crushing toward sugar production rather than ethanol, thus boosting sugar supplies.

**India's sugar exports are likely to be far lower than a 5 million-tonne target set by government** as a strengthening rupee and falling global prices make shipments unattractive despite a government push for overseas sales. As Agriwatch expected that India is likely to export to 3.0 million tonnes of sugar in the 2018/19 marketing year that started on Oct. 1

**Weather Forecast for tomorrow:**

During the next 24 hours, light to moderate rain and snow is expected over many places of Jammu and Kashmir, Himachal Pradesh and isolated pockets of Uttarakhand and Arunachal Pradesh. Isolated rains may also occur over North Punjab. Minimums are expected to rise over the northwestern plains and maximums may drop over Jammu and Kashmir, Himachal Pradesh, Uttarakhand and parts of Punjab. Pollution levels over Delhi-NCR will remain unchanged.

**Previos Updates:**

**The Government of Punjab has released Rs 35 crore to the cooperative sugar mills of the state towards the payment for sugarcane dues for the year 2017-18.** The same has been credited into the accounts of the sugarcane farmers. The cooperative sugar mills had dues amounting to Rs 182.26 crore pending towards the government as of December 31, 2018, out of which Rs 151.82 crores remain due following the payment of Rs 35 crore. Out of these Rs 151.82 crore, a sum of Rs 65 crore has been released by the Punjab Rural Development Board, which would be paid soon. This was stated by the state cooperation minister, S Sukhjinder Singh Randhawa.

**The Centre is likely to revise the sugar minimum selling price (MSP) by 10 per cent from its current level of Rs 29 a kg to Rs 32 a kg in the weeks ahead.** Last year, the Union food ministry had fixed the ex-factory sugar sale price at Rs 29 a kg to help domestic sugar mills amid falling retail sugar prices and the export-market squeeze owing to a global glut in the sector.

**According to the latest data from the Maharashtra government's Commissionerate of Sugar, mills in the state, as on December 31,** were to have paid growers Rs 7,450.90 crore for cane at the "fair and remunerative price" or FRP of about Rs 245 per quintal declared by the Centre for the 2018-19 season (average rate, after deducting harvesting and transport charges from field). But they had only managed to pay Rs 2,875.37 crore, which translates into arrears of Rs 4,575.53 crore. For Uttar Pradesh the current season, they have, till January 4, bought cane worth Rs 10,051.02 crore at the state government's average state "advised" price or SAP of around Rs 320 per quintal. Out of this, they were to pay Rs 7,210.11 crore within the stipulated 14-day period from the date of cane delivery. But payments so far have been just Rs 2,857.03 crore, with the resulting arrears at Rs 4,353.08 crore, and Rs 6,123.26 crore overall.

**India's sugar production till December 31, 2018 is up by 6.7% y-o-y.** As on 31st December, 2018, 501 sugar mills were in operation in the country and have produced 110.52 lakh tonnes of sugar, as compared to 103.56 lakh tons produced by 505 sugar mills as on 31st December 2017. The slightly higher production of 6.96 lakh tonnes is because Maharashtra and Karnataka sugar mills started their crushing earlier this year. However, due to substantially lower rainfall and white grub infestation, Maharashtra will produce significantly lower quantity this year as compared to last year. Overall, the country is expected to produce much less sugar this season as compared to last year.

## Weekly Outlook:

Indian Sugar market witnessed a mixed trend during last week. On hopes of increase in floor price which is currently at Rs 2,900 per quintal. We expect sugar prices may trade down on good physical supplies from mills are continuing in the physical market due to imposed stock limit on mills. Prices are supportive after Jan due to the expectation of weak cane crush this season in the key producing states of UP, Maharashtra and Karnataka. The release quota for January month of 18.50 LMT little lower then December month, since UP and Maharashtra states demanding extra sales quota , due to the low sales quota, mills are unable to sell their sugar and repay the farmers on time.
