

Sugar & Gur Domestic & International Fundamentals**Recent Update:**

Indian sugar prices showed mixed trend in almost all over markets on Thursday. The prices are expected to remain steady to low for coming few days due to less demand and higher sales quota as per the consumption. Kolhapur sugar market prices stood unchanged at Rs.3100 and may move below MSP whereas in U.P's Khatauli market at Rs.3250INR.

Severe drought circumstances has reduced the total sugar production estimates to 13 million tonnes in Thailand around 7% reduction is expected compared to this year (2018-19). Sugarcane output is expected to decline about 8% to 120 million tonnes in 2019-20 season which will start from Nov'19 due to scanty rainfalls and decreased acreage compared to 130.9 million tonnes of cane in 2018-19. But it is highly dependent on rainfall whether the output would increase or decrease.

The Brazilian real rallied to a 3-1/2 month high against the dollar on Wednesday, which discourages export selling by Brazil's sugar producers. Sugar prices also have support from reduced sugar output in Brazil, the world's biggest sugar producer, after Unica reported Wednesday that Brazil's 2019/20 Center-South sugar production through June fell -8.9% y/y to 8.905 MMT.

Weather Forecast:

Heavy to very heavy rains are expected over Uttarakhand, Uttar Pradesh, Bihar, Sub-Himalayan West Bengal and Sikkim, Assam, Meghalaya, Arunachal Pradesh, Nagaland, and Meghalaya. Light to moderate rains with few heavy spells will be seen over parts of Himachal Pradesh, rest of Northeast India, Konkan and Goa, and Coastal Karnataka. Scattered light to moderate rains will be seen over Jammu and Kashmir, Jharkhand, Odisha, parts of Chhattisgarh, Vidarbha, parts of Telangana and Kerala. Light rain at few places of North Punjab, East Uttar Pradesh and few places of Tamil Nadu will be seen. Weather to remain dry over most parts of Haryana, many parts of Punjab, Delhi, Kutch, South Interior Karnataka, and Andhra Pradesh.

Previous Updates:

According to All India Sugar Trade Association, the Central Government should introduce dual MSP where Central Northern states MSP to be higher than that of Central Southern states or Maharashtra State Government gives transport subsidy for the difference of transportation cost which can enable Maharashtra to sell the allotted quota allotted every month.

Since Oct'18 to May'19, the Central Government has allocated 60.50 LMT to sugar mills in Maharashtra and mills are able to sale only approximately 46 LMT failing to sell 14 LMT and hence falling short of cash liquidity worth Rs. 4350 crores. There is excess transportation cost difference of Rs.1800 to Rs.2000 per MT which Maharashtra seeks help from the Government.

Kharif sowing of sugarcane crop was delayed in key growing states like Maharashtra, Karnataka. The total Kharif planting reached 49.98 lakh hectare as on 4th July'19, 1.66 lakh ha higher than last week and down by 1.43 lakh ha compared to previous year (51.41 lakh ha) in 2018-19 season.

Brazil CS sugar production for 2019-20 season reached 42.4 mln tonnes till first half of June whereas by June 30th, 2.451 mln tonnes of cane have been crushed by Australia compared to 3.77 mln tonnes crushed by July last year.

Brazil expects rise in sugar and ethanol exports demand from European Union. It was announced recently that an agreement has been reached on different terms, allowing 562 million liters of ethanol to enter the EU without a tariff every year, and 250 million liters to receive lower tariffs. Also, the tariff will be zero for 180,000 tonnes of sugar imports per year. This could bring the value of annual exports from Brazil to the EU to BRL 2 billion, up from BRL 600 million in the past.

Kisan Cooperative Sugar Mill from Uttar Pradesh has got permission from Central government to export 59,000 quintals sugar to Sri Lanka. The government is planning over framing new sugar export policy to reduce surplus and address the concerns of the glut in sugar industry.

Kharif sowing of sugarcane crop was delayed in key growing states like Maharashtra, Karnataka. The total Kharif planting reached 49.81 lakh hectare as on 28th June'19 down by 1.46 lakh ha compared to previous year (50.68 lakh ha) in 2018-19 season. It is expected to pick up the pace due to onset of monsoon in major growing states and the revival of standing sugarcane crop is now on positive side.

Export demand for sugar has been decreasing since last month, exporting around 31LT till May'19. Exports are expected to reach upto 33-35LT till the end of this season (2018-19 SS). Domestic sugar prices are dwindling at or below MSP due to lack of demand against the huge stacks of sugar piles.

The food ministry has allocated July month's sales quota at 20.5 LT to each 534 mills in India lower than 21.5 LT in previous month. Due to unsold stocks in the previous month and due to the possibility of less demand in July because of arrival of monsoon, less sales quota has been decided for this month.

May month sugar exports of Brazil stood at 17.5 LT higher than previous month which was 12.2 LT (April) due to supportive Brazilian real at 308 \$/ton. The major export destination for Brazil were Algeria, China, Saudi Arabia, UAE and Bangladesh in the current season (April'19-Mar'20) for Brazil.

Weekly Outlook:

Indian Sugar markets remained weak during last week. We expect sugar prices may trade steady due to no demand in the market. As per the Agriwatch estimate, spot sugar prices (M grade) in benchmark Kolhapur market are likely to range between Rs 3100–Rs 3200 per quintal for next week.
