Previous Updates:

According to Australian Sugar report released by Australian sugar milling council, the weekly crush in the week ending on 28th July'19 jumped to 1.473 lakh tonnes reaching 6.82 lakh tonnes (21.7%) total crush from the beginning of the season. The crush as on 29th July'18, was around 3 lakh tonnes higher at 9.82 lakh tonnes compared to 2019-20 crushing.

The Agriculture Ministry has released the sugarcane sowing data on 2nd Aug'19. Sugarcane acreage remained same at 52.30 lakh ha from last week. The area is higher by 4.56 lakh ha compared to the normal area and lagging behind by 3.15 lakh ha from that in corresponding period previous year. Largest decrease in acreage is seen in Maharashtra, Tamil Nadu, UP and Gujarat by 2.6 lakh ha, 0.81 lakh ha, 0.56 lakh ha and 0.47 lakh ha respectively from last year.

Maharashtra millers demanded the central government's nod to convert existing sugar to ethanol, an alternate to C- Heavy Molasses, B Heavy Molasses and juice into ethanol. As oil companies are expecting 110 crore liters of ethanol from Maharashtra to meet E10 fuel (gasoline containing 10 percent ethanol). The crop in 2019-20 season is estimated lower in Maharashtra due to unavailability of water, therefore, the shortfall of B- heavy molasses may occur. The availability of ethanol will get restricted to 70 crore litre, 5 crore litre totalling 75 crore litre through the B Heavy Molasses and Juice routes separately.

Daily Sugar & Gur Fundamental Report

7th Aug, 2019

Heavy rains in Maharashtra filled up the existing desiccated dams and received a surplus rainfall of 7% whereas Marathwada region is still deficit of rain by around 27 to 30%. Heavy rains in Satara and Sangli districts have ensured a healthy water stock in dams. The Koyna dam the largest source of water of the state has filled up to 74.89 TMC of its 105 TMC capacity.

Farmers are more likely to send the cane for fodder as they are getting better prices instead of selling to the sugar mills. A lot of dried cane in the last month is sent for fodder. In Maharashtra, the Marathwada regions rainfall since June has been 29% lower than normal, while Vidarbha saw rains that were 19% below average, according to IMD. But the arrival of monsoon has brought some relief but several area are still suffering from scanty rainfall.

Brazilian Sugar exports has slumped down to 21% in the first half of the new season (2019-20) compared to the same period of 2018-19 season. Demand continues to be weaker as the buyers have already enough unsold stock. Due to which the departure of sugar from the ports of Brazil is slacking at the time when the exports increases as Brazil is approaching in its peak season.

August month's sugar quota have been fixed at 19 LT to each 535 mills in India along with added incentivised quota to those mills who have completed their export targets under MIEQ Quota. The government has increased the buffer stock to 40 LT that would help to maintain the supply and demand. Also, the festive demand will help the sugar mills to liquidate the stocks in the August month.

Weekly Outlook:

Indian Sugar markets remained weak during last week. We expect sugar prices may trade steady due to no demand in the market. As per the Agriwatch estimate, spot sugar prices (M grade) in benchmark Kolhapur market are likely to range between Rs 2900–Rs 3150 per quintal for next week.
