

**Sugar & Gur Domestic & International Fundamentals****Recent Update:**

**Mixed trend was observed in Indian Sugar market on Monday.** Overall the prices are expected to be steady to firm in Indian markets. Kolhapur sugar market price stood at Rs.3250 and in U.P's Khatauli market stood at Rs. 3455 INR.

**Weather Forecast:**

During the next 24 hours, heavy rains and thundershowers are likely to occur at some places over Madhya Pradesh, Gujarat, Sub-Himalayan West Bengal, coastal Karnataka, and at isolated places over Chhattisgarh, South Uttar Pradesh, Assam and Kerala. Moderate rains and thundershowers might occur at many places over Gujarat, Goa and Konkan coast, rest Madhya Pradesh, Chhattisgarh, Vidarbha, North Telangana, Odisha, Bihar, Jharkhand, East Uttar Pradesh, eastern parts of Rajasthan, North Kerala, rest West Bengal and Northeast states. Dry and warm weather with subdued rainfall activity is likely to prevail over Gujarat, Punjab, Haryana, parts of West Uttar Pradesh, Tamil Nadu and Rayalaseema. Light rainfall is likely to occur over rest parts of the country.

**Previous Updates:**

**The higher cost of production of sugar in China and some countries are exporting the sugar below the cost prices has hampered the domestic sugar prices.** The ministry of commerce has been urged to increase the tariffs on sugar imports. According to the reports, the plan to request an extension of the tariffs was discussed at a meeting organized by the China Sugar Association on September 5. China in 2017 to protect the domestic industry imposed 15 per cent tariffs on sugar imports within 1.94 million tonnes, and 50 per cent levy on Imports beyond 1.94 million tonnes. China's trade measures on sugar imports, set to expire on May 21, 2020.

**According to Thai Sugar Millers Corporation, Thailand exported 71,782 tonnes of white sugar and 4.82 lakh tonnes of raw sugar in July'19.** Total of 4.03 lakh tonnes of white sugar at an average FOB \$320/tonne and 32.26 lakh tonnes of raw sugar at an average FOB \$292.5/tonne has been exported so far till July'19 from January'19.

**There is likely to be global sugar deficit of nearly 4.76 mln tonnes in 2019-20 driven partly by lower production in India and Thailand.** According to the report, Global production is falling by 2.35 per cent to 171.98 million tonnes, while consumption will rise by 1.34 per cent to 176.74 mt in 2019-20 (FY20) season which begins on 1<sup>st</sup> Oct'19.

**According to Australian Sugar report released by Australian sugar milling council, the weekly crush in the week ending on 1<sup>st</sup> Sep'19 jumped to 1.534 lakh tonnes** reaching 14.33 lakh tonnes (46.5%) total crush from the beginning of the season. The crush as on 2<sup>nd</sup> Sep'18, was around 3.26 lakh tonnes higher at 17.59 lakh tonnes compared to 2019-20 crushing.

**The Conab projects Brazil's 2019-2020 crop to reach 31.8 million tonnes of sugar, up 9.5% from the previous one.** The current crop started last April and runs till March 2020. There is an increase of 0.3% in sugarcane planting from the last crop, with a harvest of 622.3 million tonnes. In ethanol, Brazil will see 30.3 billion litres from sugarcane, as well as 1.35 billion of corn ethanol. Overall, it is expected to reach

31.6 billion litres. From the cane ethanol, anhydrous (which is mixed into gasoline) will see a 10.5 billion litres production, while hydrated ethanol (used pure as a fuel) will reach 19.8 billion litres.

**Crushing licenses in 2019-20 season will be issued to the same sugar mills in Maharashtra, which have paid 100% of the crushing season 2018-19 of the farmers.** State sugar commissioner Shekhar Gaikwad told that there is still a balance of Rs 589.59 crore left on the state's sugar mills. He said that out of 195 sugar mills in the state, 130 sugar mills have paid 100 percent so far. He said that sugar mills have time till 31 September 2019 to pay the dues.

**The world sugar prices is on declining trend after the announcement made by the Indian government for export subsidy incentive spending Rs.6268 crores** in an effort to cut the nation's record stock piles. Already the world inventory is on high and addition to this, recently the Brazil government last week agreed to increase tariff-free U.S. ethanol imports to 800 mln liters per year from the current 600 mln liters per year. The increased imports from the U.S. may prompt Brazil's sugar mills to decrease ethanol output in favor of increased sugar production. Also, Mexico will likely try to export as much as 500,000 metric tons into the world market to clear some storage space before the next season begins on 1<sup>st</sup> Oct'19.

**The cabinet approved rising the ethanol prices for supply to Public Sector Oil Marketing Companies for procurement of ethanol with the effect from 1<sup>st</sup> Dec'19 for one year.** The price of ethanol from **C heavy molasses** route increased from Rs.43.46 per litre to Rs.43.75 per litre. The price of ethanol from **B heavy molasses** route be increased from Rs.52.43 per litre to Rs.54.27 per litre. The price of ethanol from **sugarcane juice/sugar/sugar syrup** route be fixed at Rs. 59.48 per litre. Remunerative price to ethanol suppliers will help in reduction of cane farmer's arrears, in the process contributing to minimizing difficulty of sugarcane farmers.

## Weekly Outlook:

**Indian Sugar markets remained weak during last week.** We expect sugar prices may trade steady to firm due to growth in demand in the market. As per the Agriwatch estimate, spot sugar prices (M grade) in benchmark Kolhapur market are likely to range between Rs 3200–Rs 3350 per quintal for next week.
