

**Sugar & Gur Domestic & International Fundamentals****Recent Update:**

**Mixed trend is seen in Indian sugar markets on Tuesday.** Overall the prices are expected to be steady to firm in Indian markets. Kolhapur sugar market price stood at Rs.3250 and in U.P's Khatauli market stood at low Rs. 3460 INR.

**First distillery unit which will produce ethanol from direct juice going to be establish in Gorakhpur district of Uttar Pradesh in the coming 2 years.** The unit is likely to crush 1,250 tonnes of cane/day and produce 95,000 liters of ethanol. The Centre has also provided soft loans to sugar mills to build new distilleries and enhance existing ones in India. The government has recently hiked the prices of ethanol made from 100% cane juice and C-heavy molasses to 59.48 rupees a ltr and 43.75 rupees a ltr respectively encouraging the ethanol production so as reduce sugar production.

**According to the trade sources, India exported around 2.7 LT of sugar in Aug'19 around 1.5 LT higher than previous month.** Iran imported maximum quantity of sugar from India around 78056 tonnes at \$347/tonne FOB followed by Sri Lanka which imported 30995 tonnes at \$344/tonne FOB and Somalia importing around 29619 tonne at \$346/tonne.

**Weather Forecast:**

During the next 24 hours, light to moderate rains with one or two heavy spells is expected over East and Central Uttar Pradesh. Light to moderate rains with isolated heavy spells can be seen over Assam, Sub-Himalayan West Bengal and Sikkim, parts of Bihar and Jharkhand, North and East Madhya Pradesh, Vidarbha, parts of Chhattisgarh, Telangana, parts of North Coastal Andhra Pradesh, Konkan and Goa, Coastal Karnataka, Kerala, parts of Tamil Nadu and Andaman and Nicobar Islands. The weather will remain dry over most parts of Punjab, Haryana, West Rajasthan, Kutch and parts of Rayalaseema.

**Previous Updates:**

**All India sugarcane sowing progress released by Government of India, as on 12<sup>th</sup> Sep'19, the sowing has almost been completed under sugarcane.** The total area stood same as of last week at 52.45 lakh ha area has been covered this year lower by 3.06 lakh ha (5.5%) but higher by 4.5% than normal area as on date. The acreage in Tamil Nadu, Maharashtra, Telangana, AP, and UP declined this year by 0.81 lakh ha, 2.6 lakh ha, 0.07 lakh ha, 0.11 lakh ha and by 0.56 lakh ha respectively due to unfavourable prolonged drought conditions (delayed monsoon) in all the states.

**The rain advanced in the southern states in AP, Telangana and Karnataka and the Belagavi district of Karnataka has been affected with floods due to which the shortage of sugarcane is reported this year.** The flood had destroyed sugarcane crop on 1.15 lakh hectares, which is around 45 per cent of the total cane that stands on 2.5 lakh hectares in the district. This would affect the overall production of the state and the farmers are worried that they would be get paid if the mills are struggling with shortage of cane.

**The recent floods in Kolhapur, Sangli and Satara had created havoc in the districts by damaging around 50-60 lakh tonnes of cane and another 30-40 lakh tonnes of cane was drastically affected by the drought in earlier of season.** Cooperative sugar millers in Maharashtra have urged state sugar commissioner Shekhar Gaikwad to postpone the crushing season of 2019-20 to December 1 which is requested to be delayed by around 1 month.

*The department of Food and Public Distribution issued a notification yesterday to facilitate export of sugar during the sugar season 2019-20 thereby improving the liquidity position of sugar mills enabling them to clear cane price dues of farmers for sugar season 2019-20 notified the Scheme for providing assistance to sugar mills for expenses on marketing costs including handling, upgrading and other processing costs and costs of international and internal transport and freight charges on export of sugar. The department will also review the performance of sugar mills on quarterly basis and in case of non-performing mills, their Maximum Admissible Export Quantity (MAEQ) may be reduced and accordingly MAEQ of performing and willing sugar mills may be increased.*

*The government is likely to accept a proposal made by Indonesia to reduce import duty on refined palm oil from Indonesia in exchange they will import high quality raw sugar exports from India. Since India is struggling due to surplus sugar, and the next season is estimated at 120 lakh tonnes of opening stock. Such a large quantity is sufficient to meet India's six months of sugar consumption.*

## Weekly Outlook:

Indian Sugar markets remained weak during last week. We expect sugar prices may trade steady to firm due to growth in demand in the market. As per the Agriwatch estimate, spot sugar prices (M grade) in benchmark Kolhapur market are likely to range between Rs 3200–Rs 3350 per quintal for next week.
