

Sugar & Gur Domestic & International Fundamentals**Recent Update:**

The price trend remain steady in Indian sugar markets on Friday. Overall the prices are expected to be steady to firm in Indian markets. Kolhapur sugar market price stood at Rs.3300 and in U.P's Khatauli market stood at low Rs. 3500 INR.

Weather Forecast:

During the next 24 hours, light to moderate rains with a few heavy spells are likely over South Uttar Pradesh, adjoining North and Northeast Madhya Pradesh, parts of West Bengal, East Bihar, East Jharkhand, South Gujarat, and adjoining West Madhya Pradesh. Scattered light to moderate rains with one or two heavy spells are possible over West Assam, Bihar, Jharkhand, Odisha, East Uttar Pradesh, Madhya Pradesh, Vidarbha, Madhya Maharashtra, Konkan and Goa, Coastal Karnataka, parts of Kerala, parts of Telangana and North Coastal Andhra Pradesh. Weather will remain dry over rest Rajasthan, Haryana and Punjab. Rest all places in India might see scattered light rains with one or two moderate spells.

Previous Updates:

Sugar factories are planning to start crushing before Diwali whereas Maharashtra will start only after Diwali due to the upcoming elections. The Karnataka sugar mills could benefit from this while Maharashtra will face challenges due to the early crushing in the neighbouring state. Usually Karnataka pulls sugarcane from the bordering districts of Karnataka from Maharashtra (Kolhapur & Sangli). As the two districts; Kolhapur and Sangli results in higher recovery compared to Karnataka, therefore, they tend to carry sugarcane from Maharashtra.

Unica reported that sugar production in Brazil's Center-South fell -5.6% against last year to 2.037 MT in the first half of Sep and that total 2019-20 sugar output through mid-Sep fell -4.9% to 20.01 MMT. The cane crush so far reached 437.74 mln tones as of 16th Sep'19 against 432.51 mln tonnes in 2018-19. Unica projects that increased ethanol output in Brazil will cut Brazil 2019/20 Center-South sugar production by -5.7% y/y to a 14-year low of 25 MMT.

According to Thai Sugar Millers Corporation, Thailand exported 3.85 lakh tonnes of refined sugar and 4.59 lakh tonnes of raw sugar in Aug'19. Total of 18.99 lakh tonnes of refined sugar (-29.59%) has been exported at an average FOB \$353.32/tonne and 36.86 lakh tonnes (-10.6% y/y) of raw sugar at an average FOB \$293.49/tonne much lower sugar has been exported so far till Aug'19 from January'19 because of lower sugar demand in 2018-19. Whereas the refined sugar exports in 2018-19 was at 26.97 lakh tonnes and 41.24 lakh tonnes of raw sugar was exported during Jan'18 to Aug'18.

According to Australian Sugar report released by Australian sugar milling council, the weekly crush in the week ending on 22th Sep'19 fall to 14.74 lakh tonnes and the total crush reached 188.48 lakh tonnes (61.5%) total crush from the beginning of the season. The weekly crush as on 23rd Sep'18, was around 15.24lakh tonnes and total crush as on date was 221.14 lakh tonnes (66.71%) compared to 2019-20 crushing.

Maharashtra this year have been in the adverse weather conditions with 50% area in dry and remaining area in flooded conditions. The total loss of sugarcane in Maharashtra is expected to around

35-40% according to the trade sources. The sugarcane loss is included from the Marathwada region (20-25%) and from the flooded affected region in Kolhapur, Satara and Sangli (15-20%). The farmers are selling sugarcane in the cattle feed market, which is getting Rs 3,500 per tonne higher from Rs.2750 per tonne which is offered by the mills. Sugarcane was sold for cattle feed due to lack of fodder in several districts of Marathwada, Vidarbha along with some districts of western Maharashtra in the state, which gave attractive returns to farmers.

The UP government has issued an amount of Rs. 1,100 crore to revive two defunctional state-owned sugar mills in the eastern part of the state (Munderwa and Pipraich in Basti and Gorakhpur districts). Both plants will be made operational from the upcoming 2019-20 crushing season. As there is huge demand of Sulphur free sugar which is of premium quality and the prices range Rs.150-200 higher compared to normal sugar, therefore, the new technology would be installed by 2020-21 to produce sulphur free sugar in the same districts.

Many sugar mills in India are going to close due to shortage of cane this year and due to bad financial conditions, the government is planning frame a policy to revive the sugar mills by utilizing the land area of mill for ethanol production. The ethanol economy has the potential to reach Rs. 1 lakh crore from about Rs. 25,000 crore and can reduce the annual Rs. 7 lakh crore crude imports according to the Indian government. This will promote the Sugar industry to accelerate the ethanol production and thus supporting the sugar prices also by the estimation of lower sugar in 2019-20 season.

Imports of sugar in China stood at 4.7 lakh tonnes in the month of August'19 around 217.6% higher than last year in same period. The total imports till Aug'19 stood at 4.3 mln tonnes which is around 1% lower compared to last year. From 1st Oct'19, Indian sugar producers are likely to start exporting sugar to China and among some other countries like Iran, East Africa, Bangladesh, Iran, Sri Lanka & Indonesia. After the sugar incentives subsidy announcement by India boosted the bookings of shipments across the countries for export among which Indonesia and Nepal already finalized the deal for importing Indian sugar from upcoming season.

In order to reduce the crude imports to India, OMCs have made decision to increase the ethanol blending and a step to promote ethanol production from molasses, sugarcane juice, sugar syrup and distilleries producing ethanol. For the current year 2019-20, OMCs are likely to buy 5.11 billion liters of ethanol which is 55% higher than the preceding year which stood at 3.29 billion liters. The recent hike in ethanol prices from C-heavy, B-heavy and from direct juice along with surge in the requirement of ethanol by OMCs would help government in achieving the target of 10% blending of ethanol in petrol by 2020.

Nepal has lifted import restriction on Indian sugar, therefore, India can export sugar to Nepal in the coming season as a hope of opportunity to India to decrease the existing sugar stock. Nepal has contracted to import 20,000 metric tonnes of sugar. Out of this, Food Management and Trade Company Limited and Salt Trading Corporation Limited to import 10,000 metric tonnes of sugar each. The ban earlier was imposed due to the excessive supply of cheaper foreign sugar in the Nepal domestic market which had lowered the demand for comparatively costly Nepali sugar.

Weekly Outlook:

Indian Sugar markets remained weak during last week. We expect sugar prices may trade steady to firm due to growth in demand in the market. As per the Agriwatch estimate, spot sugar prices (M grade) in benchmark Kolhapur market are likely to range between Rs 3200–Rs 3350 per quintal for next week.
