

Sugar & Gur Domestic & International Fundamentals**Recent Update:**

Steady to weak trend is seen in the sugar market across India on Saturday. Overall the prices are expected to be steady to weak due to lower demand. Kolhapur sugar market stood unchanged at Rs.3200/q and U.P's Khatauli market prices stood at Rs.3440/q.

In the month of September, India exported around 1.46 LT lower than the previous month's exports. Iran imported the largest amount of sugar (45,931MT) at an average FOB of \$352/MT followed by Somalia, importing 33,392MT at \$332/MT FOB. Total refined sugar exports are expected to have reached around 40 LT so far in the marketing year 2018-19. After the introduction of export incentives by the government, there is expectations of exporting around 55LT of sugar in the 2019-20 marketing year.

Weather Forecast:

During the next 24 hours, scattered light to moderate rain is likely over Maharashtra, Coastal Andhra Pradesh, Tamil Nadu. Scattered light rains with one or two moderate spells are possible over Karnataka, Telangana. Scattered light rain is likely over Kerala, parts of Gujarat, South Madhya Pradesh, Jammu and Kashmir, West Rajasthan. Isolated shower is a possibility over Northeast India. Sea conditions will be rough over Karnataka, Maharashtra, Gujarat coast with strong winds of 40-50 kmph gusting to 60 kmph are possible over North Karnataka, Maharashtra and Gujarat coast.

Previous Updates:

Sales quota allocated to the mills this month at 20.5LT on monthly basis for November to each 535 mills in India lower compared to the previous month's quota of 21LT. The allocated quota of November 2019 is 1.5 LMT lower than the preceding year's November month quota that stood at 22 LMT. The prices are expected to remain stable inspite of no major festivals in November month but the prices could get support from the new export deals from different countries.

Maharashtra is likely to commence crushing not before 15th Nov'19 as directed by the state government. This time the number of private and cooperative sugar mills licensed for crushing sugarcane is lower than last year and is expected to fall sharply. Around 159 have applied for license whereas this season as compared to the previous season of 195 mills. Due to the lower crop, because of excess rains in western Maharashtra and drought in Marathwada, the number of sugar mills for crushing has come down. Sugarcane crop has been badly damaged due to floods in western Maharashtra, due to lack of water in Marathwada, the crop has been affected.

UP government is likely to invest Rs.160 crore to create ethanol production capacity of 53 million liters. In order to adopt greener fuels and to cut down the oil imports, the ethanol would be supplied to Oil Marketing Companies (OMCs). UP Cooperative Sugar Mills Federation Limited have an installed capacity to produce 35 million liters and 13.5 million liters of ethanol and rectified spirit respectively. In 2019, the ethanol production is subsequently to rise by at least 5% (estimated at 3300 million liters in 2019) as already procurement of 910 million liters have been booked earlier in the beginning of the season.

Sugar mills have partially started preparations for crushing operation, but will commence in full swing from November 15 onwards. There are about 534 sugar mills in the country. The government has fixed

fair and remunerative price (FRP) of sugarcane at Rs. 2.75/quintal for the current marketing year. Farmers in many states such as Andhra Pradesh, Karnataka and Maharashtra, are paid on the basis of the FRP set by the Centre. Whereas in Uttar Pradesh, Punjab, Tamil Nadu and other states have a State Advised Price (SAP). Sugarcane production is estimated to be lower at 377.77 million tonnes in the 2019-20 crop year (July-June) as against 400 million tonnes last year.

The country is forced to import sugar after Kenya faced drought in 2017-18 which lead to closure of several sugar mills in the country and subsequently impacted the sugar production (-8%). According to the reports, sugar production between January and September declined to 335,992 tons compared with 366,398 tons during the same period last year. Also, the sugar import surged to 324,055 tonnes from 190,084 tonnes.

Sugarcane factories in Uttar Pradesh have started sugarcane sowing. But the mills still have the arrears to be paid to the farmers which is causing hindrance in thought of sowing sugarcane. The millers have demanded the state government to give the subsidy of Rs.30/q to the farmers to pay the dues. As the sugar industry is facing crisis with not been able to fulfill the payment dues to the farmers as the problem lies in the higher cost of making sugar around Rs.34-35/kg than they receive at Rs.31/kg. Also the UP government had earlier fixed the reserve quota for molasses from 12.5% to 16% for the state manufacturers of country made liquor to maintain adequate supply of molasses for distilleries to produce country liquor. The millers have strongly opposed reservation of molasses, claiming it is a vital byproduct and the revenue generated by it contributes towards sugarcane payments to farmers.

Sugar production in Brazil's main producing region in the 2nd half of Sep remained 39% higher compared to the same time in the previous season. Till 1st of Oct'19, Brazil's center-south mills produced 21.8 million tonnes of sugar, 2% less than the same period last season, and crushed 472.80 million tonnes of cane, 3% higher from a year earlier.
