

**Sugar & Gur Domestic & International Fundamentals****Recent Update:**

*The prices across India remained steady today at Rs.3110/q in Delhi and Rs.3820 in Vijayawada. The prices in Khatauli, UP remained steady at Rs.3215/q today. While the prices in Chennai stood at Rs. 3800/q.*

**Weather Forecast:**

*Thunderstorm accompanied with lightning, hail & gusty winds (speed reaching 30-40 kmph) very likely at isolated places over Chhattisgarh, Madhya Maharashtra and Marathawada; with lightning at isolated places over Jammu & Kashmir, Ladakh, Gilgit-Baltistan, Muzaffarabad, Himachal Pradesh, Uttarkhand, Vidarbha, Andaman & Nicobar Islands, Arunachal Pradesh, Coastal Andhra Pradesh & Yanam, Telangana, Coastal & South Interior Karnataka and Kerala.*

**Previous Updates:**

***According to ISMA, 247.8 lakh tonnes of sugar have been produced till 15<sup>th</sup> April'20 across India down by 20% as against 311.75 lakh tonnes produced in the same time last year. As on 15<sup>th</sup> April'20, 139 mills were operational while 172 sugar mills that were still crushing sugarcane on 15th April 2019 last year. In UP, sugar mills have produced 108.25 LT of sugar compared to 105.55 LT of sugar with only 98 mills operational mills till 15th April'20 and 103 mills were operational last year. In Maharashtra, 136 mills have closed their operations with only 10 mills operating at this time with producing 60.12 LT compared with 106.71LT produced year on year. Similarly, this year Karnataka has also produced less sugar i.e., around 33.82 LT against 43.2 LT last year till 15th April. All mills are closed so far in the state while 1 mill was in operation during the same time last year. According to Agriwatch, Maharashtra is likely to produce around 60-61 LT followed by UP estimated around 122 LT of sugar and around 34 LT of sugar in Karnataka.***

***The two major sugar producing mills in Philippines are shut down due to the increasing effects of coronavirus in the country. The government announced a lockdown from 13<sup>th</sup> April to 26<sup>th</sup> April'20 to minimize the spread of coronavirus. Both the mills together contribute around 16% of the country's total production and produce around 82% of sugar of Southern island region. After the closure of the mills, it could lead to the shortage of sugar due to which the sugar prices might hike. The country is not a large importer but when it does, it usually buys from Thailand.***

***Brazilian sugar mills produced around 2.27 LT of sugar in the South-Central region in last two weeks of March that allocated 29.33% of the cane to produce sugar in the period, compared to 20.5% at this time last year. While the total sugar exports declined by 11% in Brazil year on year by producing 26.76 MMT of total sugar, up by only around 1% this season.***

***DFPD has asked the sugar mills to submit the quarterly report of sugar export by April 20 extended by 17 days which was supposed to be submitted by April 3<sup>rd</sup>. The ministry also warned that if mills fail to export the quota by 31<sup>st</sup> Mar'20, they would not be entitled for their claim for their quota of fourth quarter under the MAEQ scheme and also for maintenance of buffer stock of 40 LT notified by DFPD earlier in the previous year.***

***Sugar mills in UP would continue operations till the entire sugarcane crop is harvested for this season. Around 100 mills are still crushing out of the total 119 operational mills this sugar season. So far this year till 10<sup>th</sup> Apr'20, around 932 LT of sugarcane has been harvested by producing 105.41 LT of sugar up by 2.66%***

compared to the previous year sugar production during the same period. Only around 15 per cent sugarcane is left to be supplied to the sugar mills.

**In many states, the mills are facing difficulty in the crushing operations as many labourers have returned to their homes after the lockdown.** Sugarcane is lying in the fields in many states because of lack of cane harvesting labourers to cut it. The Bardoli district in Gujarat has an area of 8000 ha spread over 1.25 lakh tonnes of sugarcane is not being harvested. The area needs around 10,000 labours but only 3000 farm labours are working to harvest 1.25 lakh tonnes of cane.

**As the poor families and daily wage workers are suffering a lot after the covid-19 lockdown in every state,** the Gujarat government has decided to provide free ration to around 60 lakh families who were not getting food under National Food Security Act. They would be given 10 kg wheat grains, 3 kg rice, 1 Kg pulse grain and 1 kg sugar all free of cost. As the sugar piles in the godowns after the lockdown due to the lack of availability of labour and disruption in transport, now the mills are able to liquidate the stocks.

**Oman to import 10,000 tonnes of white sugar** to ensure the ample supply of basic commodities in the market amid the ongoing Coronavirus outbreak. Oman is also ensuring that they should face no sugar shortage in the country. Public Authority for Stores and Food Reserves has contracted to purchase 10,000 tonnes of white sugar, with the aim of strengthening the stockpile of basic food commodities. India could gain this opportunity of exporting some amount of sugar if the trade operations gets smoother.

**The sugarcane in UP is being harvested as directed by the government and the mills are supporting the farmers in transportation of the harvested cane to the mills.** As the mills in UP would continue the crushing operations till the cane is harvested from the fields so as to avoid the loss in yield and sugar recovery of the cane. Sugar mill's sugar production and supply are coming back on track gradually from the last 3-4 days.
