

**Sugar & Gur Domestic & International Fundamentals****Recent Update:**

*The prices across India were steady to firm today. The prices in Delhi & Khatauli stood firm at Rs. 3380/q, Rs.3390/q, up by Rs.10/q. The prices stood steady in Kolhapur and Vijayawada at Rs. 3300/q and 3700/q respectively.*

***Brazil sugar exports reached 3 million tonnes in June.*** This is around 14% higher than May and 97% above the same month in 2019. Sugar production continued to increase, reaching a near-record 36% increase early in June. The Brazilian ethanol market remained weak, thus, the global sugar market could be flooded, which would surge the prices.

***India has been waiting for the export deals with China but are now in worry due to the border tensions between China and India.*** According to All India Sugar Trade Association, India can export 3 lakh tonnes of sugar to China in the next two to three months. So far, India has exported 1 LT of sugar to China. Now, the Indian sugar exporters are afraid to make deals and will wait for the situation to improve.

**Weather Forecast:**

*Heavy to very heavy rainfall with extremely heavy falls at isolated places very likely over Saurashtra & Kutch; heavy rainfall at isolated places over Uttarakhand, Uttar Pradesh, East Rajasthan, Madhya Pradesh, Vidarbha, Chhattisgarh, Bihar, Jharkhand, Sub-Himalayan West Bengal & Sikkim, Odisha, Assam & Meghalaya, Nagaland, Manipur, Mizoram & Tripura, Gujarat Region, Konkan & Goa and Coastal Karnataka.*

**Previous Updates:**

***UP sets a record production of 50 LT of jaggery in 2019-20 against 45 LT in the previous year, up by around 11%.*** The western UP is the hub of jaggery production and around 30LT is expected to have produced this year. Everyday around 400-500 bags (40kg/bag) are arriving daily. Although few jaggery units got closed during lockdown that resulted in the diversion of cane to sugar producing units, thus, sugar production increased by 3-4LT. As the state has produced record production of sugarcane this year due to which there has been an increase by 7-8% in sugar production and jaggery production as well.

***OMC's have been supplied with 92.5 crore litres of ethanol till 22<sup>nd</sup> June since December'19 by Indian sugar mills.*** A total contract of 170 crore litres was finalized between the sugar mills and OMCs for 2019-20 season. The states like UP, Haryana, Punjab, Uttarakhand, Bihar and Karnataka is much higher at 8.5% to 9.8% with petrol. Whereas, an average all India blending of 5.09% with petrol was achieved. India is expecting an increase in ethanol production capacity from the current 260-300 crore litres to 375-400 crore litres and achieve 7.5-8 per cent ethanol blend levels with petrol in 2020-21 season.

***The Maharashtra government has lifted the ban imposed on the sale and transport of molasses within the state and export outside the state.*** The ban was imposed last year after the flood situation in west Maharashtra and drought in other parts of the state were prominent. As on 9<sup>th</sup> June, the molasses stock totaled to 13.9 LT including the mill's inventory of 8.47 LT while breweries have around 5.43 LT in 2019-20 in the state. The molasses recovery is expected to be 4.75 percent of cane crushed during sugar production. Therefore, in the coming season Maharashtra is likely to crush 900-920 LT of cane producing around 40 to 42 LT of molasses.

*The monthly quota has been released for Jul'20 for 21 LT of sugar sales limit to each 546 mills which is 2.5 LT higher compared to the previous month's sales quota. The July'20 sales quota is 50,000 MT higher compared to the previous year quota during the same time. The supply and demand chain has improved during the phased unlocking across the nation. No extension has been announced for the allocated quota of June 2020.*

**Maharashtra government in its recent meeting, has decided to start cane crushing earlier this year by 15th October'20.** Last year, due to the bad weather conditions the crushing was delayed and commenced on 22nd November'19. According to the government, a total of 9.21 lakh ha has been covered as on 26th June'20 under sugarcane, up by around 9.6% year on year basis. According to Agriwatch, Maharashtra may see a surge of around 22-26% rise in area under sugarcane against the previous year. And the state may see a surge of 65-70% in sugar production in 2020-21. Around 40% of sugar production was declined in 2019-20 season with the reduction in yield. As per the IMD weather report, the country has received 22% more rainfall from the actual rainfall and around 55% more in Maharashtra so far. Thus, increase in yield by about 8-10% is expected in 2020-21 sugar season.

**Due to the pandemic the sugar industry is affected.** Maharashtra State Cooperative Sugar Factories Federation said that the sugar exported were hit and the process of exports slowed down during the lockdown. Around 36 LT of sugar has been exported during January to June. Another 5-6 LT sugar contracts have been booked and ready for shipment. So far, most of the sugar has been purchased by Indonesia and Iran. As Indonesia would continue to buy raw sugar from India amid the deal with increase in Indonesian palm oil purchases by India.

**In Uttar Pradesh, around 70 per cent of the locust swarm that entered Uttar Pradesh's Jalaun from Jhansi was eliminated in a six-hour-long operation.** Around 3-4 smaller swarm of locusts entered in UP last week. The sugarcane planting is almost completed and as on 26<sup>th</sup> Jun'20 around 23 lakh ha area has been covered. The crop is in the vegetative phase in few areas around 3 to 3.5 months old. The crop is more prone to damage in the first 3-4 months of the crop growth. So far no damage reported but the assessments are being done continuously in the fields in case of any damage.

**According to ISMA, the area under sugarcane is likely to increase by around 8%.** Whereas, according to Agriwatch, the area under sugarcane is likely to increase by only 2-4% in India. Already around 48 lakh ha area has been sown so far till 11<sup>th</sup> June. If the government does not approves a raise in FRP on sugarcane and minimum selling price on sugar, would discourage farmers to plant the area under sugarcane. Also, there is around Rs.17,000 crore cane price dues that are still pending to be given to the farmers.

## NCDEX Sugar (M grade) Future Quotes (At 05:00 p.m. as on 20-12-2018)
