

**Sugar & Gur Domestic & International Fundamentals****Recent Update:**

*The prices across India showed steady to weak trend today. The prices in Delhi stood weak at Rs.3365/q. The prices stood steady in Kolhapur and Vijayawada at Rs. 3300/q and 3700/q respectively. The market in UP was closed due to 3 days lockdown.*

*In UP, so far 13.39 million litre of sanitizer has been produced till 8<sup>th</sup> July'20, out of which 67.42 lakh litre of sanitizer has been supplied within the state and 47.15 lakh litre has been supplied to other states of the country. Quantity supplied within the state; 67.42 lakh litre includes the quantity of 2.47 lakh litre supplied to various government organizations and government hospitals through the District Magistrates.*

**Weather Forecast:**

*Heavy to very heavy rainfall likely at isolated places over East Uttar Pradesh, Assam & Meghalaya and Coastal Karnataka and heavy rainfall at isolated places over Uttarakhand, West Uttar Pradesh, Madhya Pradesh, Vidarbha, Chhattisgarh, Bihar, Jharkhand, West Bengal & Sikkim, Odisha, Andaman & Nicobar Islands, Arunachal Pradesh, Nagaland, Manipur, Mizoram & Tripura, Gujarat State, Madhya Maharashtra, Konkan & Goa, Coastal Andhra Pradesh & Yanam, Telangana, Rayalaseema, Interior Karnataka, Kerala & Mahe and Tamilnadu, Puducherry & Karaikal.*

**Previous Updates:**

***According to the sources, the official announcement can be released in the coming week regarding hike in minimum selling price for sugar and sugarcane FRP. There is possibility of an increase of Rs.200/q in minimum selling price of sugar to Rs.3300/q and a rise of Rs.100/q in sugarcane FRP to Rs.285/q of cane.***

***India shipped out around 45 LT of sugar till June end, out of the total 50 LT contracts booked including 24 lakh tonnes raw sugar and around 20 lakh tonnes of refined or white sugar. The top 5 buyers were Iran, Somalia, Indonesia, Sri Lanka and Afghanistan.***

***Brazil sugar exports reached 3 million tonnes in June. This is around 14% higher than May and 97% above the same month in 2019. Sugar production continued to increase, reaching a near-record 36% increase early in June. The Brazilian ethanol market remained weak, thus, the global sugar market could be flooded, which would surge the prices.***

***India has been waiting for the export deals with China but are now in worry due to the border tensions between China and India. According to All India Sugar Trade Association, India can export 3 lakh tonnes of sugar to China in the next two to three months. So far, India has exported 1 LT of sugar to China. Now, the Indian sugar exporters are afraid to make deals and will wait for the situation to improve.***

***UP sets a record production of 50 LT of jaggery in 2019-20 against 45 LT in the previous year, up by around 11%. The western UP is the hub of jaggery production and around 30LT is expected to have produced this year. Everyday around 400-500 bags (40kg/bag) are arriving daily. Although few jaggery units got closed during lockdown that resulted in the diversion of cane to sugar producing units, thus, sugar production increased by 3-4LT. As the state has produced record production of sugarcane this year due to which there has been an increase by 7-8% in sugar production and jaggery production as well.***

**OMC's have been supplied with 92.5 crore litres of ethanol till 22<sup>nd</sup> June since December'19 by Indian sugar mills.** A total contract of 170 crore litres was finalized between the sugar mills and OMCs for 2019-20 season. The states like UP, Haryana, Punjab, Uttarakhand, Bihar and Karnataka is much higher at 8.5% to 9.8% with petrol. Whereas, an average all India blending of 5.09% with petrol was achieved. India is expecting an increase in ethanol production capacity from the current 260-300 crore litres to 375-400 crore litres and achieve 7.5-8 per cent ethanol blend levels with petrol in 2020-21 season.

**The Maharashtra government has lifted the ban imposed on the sale and transport of molasses within the state and export outside the state.** The ban was imposed last year after the flood situation in west Maharashtra and drought in other parts of the state were prominent. As on 9<sup>th</sup> June, the molasses stock totaled to 13.9 LT including the mill's inventory of 8.47 LT while breweries have around 5.43 LT in 2019-20 in the state. The molasses recovery is expected to be 4.75 percent of cane crushed during sugar production. Therefore, in the coming season Maharashtra is likely to crush 900-920 LT of cane producing around 40 to 42 LT of molasses.

**The monthly quota has been released for Jul'20 for 21 LT of sugar sales limit to each 546 mills** which is 2.5 LT higher compared to the previous month's sales quota. The July'20 sales quota is 50,000 MT higher compared to the previous year quota during the same time. The supply and demand chain has improved during the phased unlocking across the nation. No extension has been announced for the allocated quota of June 2020.

**Maharashtra government in its recent meeting, has decided to start cane crushing earlier this year by 15<sup>th</sup> October'20.** Last year, due to the bad weather conditions the crushing was delayed and commenced on 22<sup>nd</sup> November'19. According to the government, a total of 9.21 lakh ha has been covered as on 26<sup>th</sup> June'20 under sugarcane, up by around 9.6% year on year basis. According to Agriwatch, Maharashtra may see a surge of around 22-26% rise in area under sugarcane against the previous year. And the state may see a surge of 65-70% in sugar production in 2020-21. Around 40% of sugar production was declined in 2019-20 season with the reduction in yield. As per the IMD weather report, the country has received 22% more rainfall from the actual rainfall and around 55% more in Maharashtra so far. Thus, increase in yield by about 8-10% is expected in 2020-21 sugar season.
