

Sugar & Gur Domestic & International Fundamentals**Recent Update:**

Steady to weak tone are featured in Sugar & gur physical markets today in India. Sugar prices in Delhi stood lower by 10 at Rs. 3315/q against Rs. 3325/q while prices in Kolhapur and Vijayawada stood steady at Rs. 3280/q and Rs. 3640/q respectively.

Total sugarcane production in 2020-21 is expected to rise to 399.8 million tonnes against 355.7 million tonnes produced in 2019-20 kharif season. Maharashtra is likely to see a major surge in cane production this kharif season to around 900 lakh tonnes against 655 lakh tonnes last year, up by around 37% from 2019. While the top sugarcane producing state; Uttar Pradesh is likely to yield higher in 2020 compared to last year by 5-8 tonnes/ha.

According to UNICA, 306.34 million liters of ethanol is exported in August was up 6.28 percent when compared to the same period of 2019. So far this season, mills in the south-central region have sold 1.1 billion liters of ethanol into the export market, up 25.17 percent. While, According to UNICA, mills in the region have sold 11.74 billion liters of ethanol so far this season, down 17.85 percent when compared to the sale period of last year.

As the government has extended the time for MAEQ sugar exports till December, the mills will get better opportunity to clear off the stocks and help achieving the target to reach 60LT sugar exports. This could support the sugar prices when the production in the coming is expected higher. The government has to continue giving export subsidy and fix at least a target of exporting more than 60LT in 2020-21 to avoid surplus sugar in the country. The sugar industry is eagerly waiting for the government to release official notification regarding hike in MSP.

Indian sugarcane harvesting might get affected amid the pandemic situation prevailing in the country and thus resulting in delay in the production of sugar especially in Maharashtra. Mostly manual labour is employed in the cane harvesting and about only 5% is dependent on mechanized farming in India. But, most of sugar mills in Maharashtra have been continuously buying mechanized harvesting equipment that can compensate a work of around 100 migrant labours.

The government offers total subsidy of Rs.10.45 per kg of sugar exported. The government has extend the time for exports under MAEQ of 60 LT till December'20 from September'20. The time has been extended for those sugar mills which have partially exported their MAEQ quota of sugar season 2019-20 till Sep'20 will be allowed to export the balance quantity of their quota by Dec'20. The sugar industry is expecting some changes in the sugar export subsidy scheme for the coming season for smoother exports as India would have to increase the exports more than 60 LT to clear the sugar glut.

Weather Forecast:

Heavy to very heavy rainfall at isolated places over East Uttar Pradesh, Bihar, Sub-Himalayan West Bengal & Sikkim and Assam & Meghalaya and heavy rainfall at isolated places over Gujarat region, Madhya Maharashtra, Konkan & Goa and Tamilnadu, Puducherry & Karaikal. Thunderstorm with lightning at isolated places very likely over Uttarakhand, Uttar Pradesh, East Rajasthan, Bihar and Tamilnadu, Puducherry & Karaikal.

Previous Updates:

Bhartiya Kisan Union (BKU) in Uttar Pradesh have been demanding for a hike in sugarcane price up to Rs.450/q. BKU urged the sugar mills to start crushing from 15th October'20 in the new season and Dhampur sugar mills assured that the operations would start from 21st Oct'20. Also, Sugarcane minister warned the mills to pay the cane arrears as soon as possible. The state government has claimed to have paid Rs. 6000 crore arrears during the 45-day lockdown period.

According to the sources, India has contracted around 5.7 MMT of sugar till August and is expected to have exported around 5.5 MMT. While the sugar industry is hoping to get 0.5-0.6 MMT more contracts by the end of this month. The subsidy of Rs.6268 crore for the export of 6 MMT sugar by the government has proven beneficial for the country encouraging the sugar traders to export the surplus stocks. This year, Indonesia and Malaysia have opted to import from India as their traditional importer Thailand was facing with lower crop amid drought conditions in the country.

For the last two consecutive years, in 2019-20, the State Advised Price (SAP) for sugarcane has been maintained like the previous year 2018-19, which was Rs. 325 for early crop, Rs. 315 for regular and Rs. 310 for the unsuitable/rejected variety. The state produces more than half of the regular variety cane out of the total production. Generally, Uttar Pradesh prefer the SAP because of higher fixed price compared to the Fair and Remunerative Price (FRP) which is based on the recovery rate. But, recently the central government has increased the FRP to Rs.285/q at 10% recovery rate and the price goes up by 1% for every 0.1% hike in recovery rates. The recovery rates in UP has been rising steadily in the past few years because of the Co-0238 variety which gives a recovery rate more than 11.3%. Therefore, for the recovery of 11.3%, the FRP is Rs. 322.05/q which is far above than the SAP and would be preferable to accept FRP.
