Sugar & Gur Domestic & International Fundamentals

Recent Update:

Steady to firm tone are featured in Sugar & gur physical markets today in India. Sugar prices in Delhi stood higher by 5 at Rs.3200/q against Rs.3215/q while prices in Kolhapur and Vijayawada Rs.3200/q and Rs.3600/q respectively.

The government has been encouraging the sugar mills to divert cane crushing towards ethanol production so as to avoid surplus sugar production. Therefore, the government has given a one month duration to the mills for submitting their proposals to avail loans at a subsidized interest rate for increase ethanol capacity in the country. So far, 68 proposals worth Rs.3,500 crore have been approved and banks have sanctioned the loan.

Weather Forecast:

Heavy rainfall likely at isolated places over Odisha, Andaman & Nicobar Islands, Assam & Meghalaya and Nagaland, Manipur, Mizoram & Tripura. Thunderstorm with lightning at isolated places likely over Bihar, Jharkhand, West Bengal & Sikkim, Assam & Meghalaya and Nagaland, Manipur, Mizoram & Tripura.

Previous Updates:

The domestic sugar prices fall after the announcement of sales quota for the September month. The sugar traders consider that the quota is higher against the demand considering the surge in number of coronavirus cases and the sugar industry is awaiting for any announcement regarding rise in sugar MSP.

The monthly sales quota for October 2020 was fixed at 23 Lakh MT, distributed among 547 mills. The Oct'20 sales quota is 2 LT higher compared to the previous year quota during the same month and 1 LT higher compared to the previous month's quota (22 LT). The demand for sugar expected to increase during October amid upcoming Hindu festivals (Durga puja and Dussehra) and keeping in view the easing of lockdown nationwide.

Recently, the Thailand Sugar Mills Corporation recently reported that Thailand 2020-21 sugar production likely to fall by 13% compared to the previous year to an 11-year low of 7.2 MMT as dry weather this year devastated cane crop. Also, USDA recently declined Australia 2020-21 sugar production estimate to 4.3 MMT from an April forecast of 4.5 MMT and sugar export estimate to 3.40 MMT from an April forecast of 3.54 MMT.

The delay in clarity over next season's sugar export scheme has made the industry worried as it is impossible for Indian sugar to sell in the global markets without government support due to the gap between domestic and international prices. Sugar costs about Rs.33 per kg in India, while globally it is priced at Rs.22-23 per kg. The Centre has been able to pay only 10% of the subsidy given on sugar exports for this season which is about to end in the next week. Also, some export subsidy dues from 2018-19 have also not been paid.

Total sugarcane production in 2020-21 is expected to rise to 399.8 million tonnes against 355.7 million tonnes produced in 2019-20 kharif season. Maharashtra is likely to see a major surge in cane production this kharif season to around 900 lakh tonnes against 655 lakh tonnes last year, up by around 37% from 2019. While the top sugarcane producing state; Uttar Pradesh is likely to yield higher in 2020 compared to last year by 5-8 tonnes/ha.

According to UNICA, 306.34 million liters of ethanol is exported in August was up 6.28 percent when compared to the same period of 2019. So far this season, mills in the south-central region have sold 1.1 billion

3rd Oct, 2020

liters of ethanol into the export market, up 25.17 percent. While, According to UNICA, mills in the region have sold 11.74 billion liters of ethanol so far this season, down 17.85 percent when compared to the sale period of last year.

Indian sugarcane harvesting might get affected amid the pandemic situation prevailing in the country and thus resulting in delay in the production of sugar especially in Maharashtra. Mostly manual labour is employed in the cane harvesting and about only 5% is dependent on mechanized farming in India. But, most of sugar mills in Maharashtra have been continuously buying mechanized harvesting equipment that can compensate a work of around 100 migrant labours.

The government offers total subsidy of Rs.10.45 per kg of sugar exported. The government has extend the time for exports under MAEQ of 60 LT till December'20 from September'20. The time has been extended for those sugar mills which have partially exported their MAEQ quota of sugar season 2019-20 till Sep'20 will be allowed to export the balance quantity of their quota by Dec'20. The sugar industry is expecting some changes in the sugar export subsidy scheme for the coming season for smoother exports as India would have to increase the exports more than 60 LT to clear the sugar glut.

Bhartiya Kisan Union (BKU) in Uttar Pradesh have been demanding for a hike in sugarcane price up to Rs.450/q. BKU urged the sugar mills to start crushing from 15th October'20 in the new season and Dhampur sugar mills assured that the operations would start from 21st Oct'20. Also, Sugarcane minister warned the mills to pay the cane arrears as soon as possible. The state government has claimed to have paid Rs. 6000 crore arrears during the 45-day lockdown period.

According to the sources, India has contracted around 5.7 MMT of sugar till August and is expected to have exported around 5.5 MMT. While the sugar industry is hoping to get 0.5-0.6 MMT more contracts by the end of this month. The subsidy of Rs.6268 crore for the export of 6 MMT sugar by the government has proven beneficial for the country encouraging the sugar traders to export the surplus stocks. This year, Indonesia and Malaysia have opted to import from India as their traditional importer Thailand was facing with lower crop amid drought conditions in the country.
