

Sugar & Gur Domestic & International Fundamentals**Recent Update:**

Steady to weak tone are featured in Sugar & gur physical markets today in India. Sugar prices in Delhi stood lower by 90 at Rs.3190/q against Rs.3280/q while prices in Kolhapur and Vijayawada Rs.3200/q and Rs.3600/q respectively.

***Pakistan likely to import 1.517 lakh tonnes of sugar to meet the domestic demand.** According to private dealers, the sugar stocks of 0.445 million tonnes are available till 4th November'20 in Punjab and 0.565 million tonnes sugar would be available on 9th November'20 in Sindh. The sugarcane crushing in Punjab will start in the first week of November whereas the sugarcane crushing in Sindh would start by mid-November.*

According to UNICA, a total of 29.07 MMT of sugar has been produced till mid-Sep'20 since the beginning of the season in April in Brazil, a surge of 44.96% was reported this season so far. The mills allocated 47.01% of the cane to produce sugar, compared to 35.43% at this time last year. The amount of sugarcane crushed was around 459 MMT during the same period, up by 4.56% compared to the same time previous year. Brazil's total sugar production in the 2020-21 season (April-March) is expected to grow and reach a record more than 35 MMT as mills allocate more raw material to sugar production and less to ethanol.

According to Australian Sugar report released by Australian sugar milling council, the cumulative cane crush reached 19.08 million tonnes (62%) since the beginning of the season from Jun'20 while the operations were ahead in 2019 by crushing around 66% of cane during the same time last year. The crushing operations were delayed and slowed down during the beginning of the season this year. The country is expecting rains in Queensland, the major cane growing state due to which further delay in crushing is expected. Australia in 2020-21, is estimated to produce 30.9 million tonnes of sugarcane against 30.04 million tonnes produced in 2019-20 season.

The sugar mills in Uttar Pradesh and Maharashtra are expected to start crushing from 15th Oct'20 and no announced has been done regarding hike in MSP. The government would increase the sugar sales quota for the coming months so as to increase the sales so that the mills could pay cane arrears. However, the demand was weaker in 2019-20 season, but is expected to increase in the coming season until all the social gathering places becomes operational by 100 per cent.

Weather Forecast:

Heavy rainfall very likely at isolated places over Andaman Nicobar Islands, Coastal Andhra Pradesh & Yanam, Telangana, Tamilnadu, Puducherry & Karaikal and Kerala & Mahe. Thunderstorm with lightning very likely at isolated places over East Madhya Pradesh, Vidarbha, Chhattisgarh, Bihar, Jharkhand, Gangetic West Bengal, Andaman Nicobar Islands, Assam & Meghalaya, Nagaland, Manipur, Mizoram & Tripura, Coastal Andhra Pradesh & Yanam, Telangana, Coastal Karnataka, Kerala & Mahe, Lakshadweep and Tamilnadu, Puducherry & Karaikal.

Previous Updates:

The government has been encouraging the sugar mills to divert cane crushing towards ethanol production so as to avoid surplus sugar production. Therefore, the government has given a one month duration to the mills for submitting their proposals to avail loans at a subsidized interest rate for increase ethanol capacity in the country. So far, 68 proposals worth Rs.3,500 crore have been approved and banks have sanctioned the loan.

The domestic sugar prices fall after the announcement of sales quota for the September month. The sugar traders consider that the quota is higher against the demand considering the surge in number of coronavirus cases and the sugar industry is awaiting for any announcement regarding rise in sugar MSP.

The monthly sales quota for October 2020 was fixed at 23 Lakh MT, distributed among 547 mills. The Oct'20 sales quota is 2 LT higher compared to the previous year quota during the same month and 1 LT higher compared to the previous month's quota (22 LT). The demand for sugar expected to increase during October amid upcoming Hindu festivals (Durga puja and Dussehra) and keeping in view the easing of lockdown nationwide.

Recently, the Thailand Sugar Mills Corporation recently reported that Thailand 2020-21 sugar production likely to fall by 13% compared to the previous year to an 11-year low of 7.2 MMT as dry weather this year devastated cane crop. Also, USDA recently declined Australia 2020-21 sugar production estimate to 4.3 MMT from an April forecast of 4.5 MMT and sugar export estimate to 3.40 MMT from an April forecast of 3.54 MMT.

The delay in clarity over next season's sugar export scheme has made the industry worried as it is impossible for Indian sugar to sell in the global markets without government support due to the gap between domestic and international prices. Sugar costs about Rs.33 per kg in India, while globally it is priced at Rs.22-23 per kg. The Centre has been able to pay only 10% of the subsidy given on sugar exports for this season which is about to end in the next week. Also, some export subsidy dues from 2018-19 have also not been paid.

According to UNICA, 306.34 million liters of ethanol is exported in August was up 6.28 percent when compared to the same period of 2019. So far this season, mills in the south-central region have sold 1.1 billion liters of ethanol into the export market, up 25.17 percent. While, According to UNICA, mills in the region have sold 11.74 billion liters of ethanol so far this season, down 17.85 percent when compared to the sale period of last year.

The government offers total subsidy of Rs.10.45 per kg of sugar exported. The government has extend the time for exports under MAEQ of 60 LT till December'20 from September'20. The time has been extended for those sugar mills which have partially exported their MAEQ quota of sugar season 2019-20 till Sep'20 will be allowed to export the balance quantity of their quota by Dec'20. The sugar industry is expecting some changes in the sugar export subsidy scheme for the coming season for smoother exports as India would have to increase the exports more than 60 LT to clear the sugar glut.
