

Sugar &Gur Domestic & International Fundamentals

Recent Update:

Steady and firm tone was witnessed in Sugar physical markets today in India. Sugar prices closed high in Delhi and Dhampur by Rs. 10-25 to Rs. 3250/q and Rs. 3200/q, respectively. Prices were steady at Rs. 3150/q in Kolhapur and other markets.

Haryana leads in the country with maximum sugar prices of Rs 350 per quintal to Rs 340 per quintal earlier. The sugarcane prices are increased by Rs10 per quintal to accept the demand of farmers although the prices are not high in the market.

Weather Forecast:

Heavy rainfall likely at isolated places over Tamilnadu, Puducherry&Karaikal. Thunderstorm with lightning likely at isolated places over Coastal Andhra Pradesh & Yanam and Tamilnadu, Puducherry&Karaikal.

Previous Updates:

Extension of Export Subsidies will create export opportunities for India. As the Thailand's Production is expected to be lower this year, while Brazil's crushing will start from April 2021. Therefore, India for now till April 2020-21 has a good export opportunity. The government is reconsidering extension of sugar export subsidies as to increase export in the international market. Although, government is offering export subsidies from past 2 years in order to reduce surplus stocks and help sugar mills clear cane payments to the growers.

Haryana is likely to start crushing sugarcane by the coming week. The state has increased the targets of crushing in the sugar mills this season. Also, the Haryana government has planned to set up a new sugar mill with a capacity of 5,000 TCD in Panipat district and the crushing capacity of the new mill would be 50,000 quintals per day. This will benefit the farmers from Panipat as well as neighbouring districts. **The target of 754 lakh quintals is set for sugarcane crushing** in Haryana for 20-21 seasons. This year the target is higher as compared with last season, sugar mills have to start their operation as scheduled.

Pakistan sold sugar at subsidized rates as the sugar prices were high in the country, government has decided to sell sugar at subsidized rate of Rs 70 per kg, less than the price offered in the open market i.e. Rs 120 per Kg. The government has fixed a quota of 5 kg per person to ensure that maximum people get the sugar at low rate.

Sugar millers urge centers to announce export policy. As the sugar marketing season arrives, Sugar millers have started appealing the centre to announce a policy for the export of sugar. The country has a huge inventory of sugar, due to which the industry fears a collapse unless the government announces an export policy. With the domestic consumption of 260 lakh tones, there is a need to export at least 50-60 lakh tonnes otherwise the closing stock of the season will come to 158 lakh tonnes.

After 2 years, Government's Plan to boost ethanol capacity. The central government earlier announced a programme to encourage sugar mills to expand their ethanol production capacities, only 116 applications got the approval for the loan out of the total 368 that have applied for interest subvention. The payment that OMCs make for ethanol supplied by the sugar companies will be deposited in escrow account, that will be first accessed by the bank to settle their loans and later will be passed on to sugar mills.

The sugarcane farmers in Karnataka have demanded for a hike in sugarcane State advisory price (SAP) for 2020-21. The Fair and Remunerative Price (FRP) for sugarcane was increased by the government to Rs.2850

per tonne and the Karnataka farmers have demanded hike to Rs.3300 per tonne as the FRP is sufficient. As the farmers have been agitating and that could lead to problems in supply of sugarcane to the sugar mills in the state.

The government is trying to promote ethanol production in the country, therefore, the cabinet has revised the ethanol prices for the supply to Oil Marketing Companies (OMCs). The price of ethanol from sugarcane juice or sugar and sugar syrup has been increased from Rs 59.48 to Rs.62.65 per litre. An increase in the price of ethanol from C heavy molasses also approved by the cabinet from Rs 43.75 to Rs.45.69 per litre and price of ethanol from B heavy molasses route from Rs 54.27 to Rs 57.61 per litre. This would help the sugar mills for the clearing of cane arrears for the sugarcane farmers.

Dry weather in Brazil could impact the sugarcane crop in the coming season (2021-22). According to the Brazil data, Centre-South cane crop expected to reach 575 MMT in the season starting from April 2021 to March 2022 as against 596 MMT in the current crop season amid adverse dry climatic conditions.

The sugarcane harvesting in Uttar Pradesh in few areas have been started and likely to commence crushing in the first week of November. The rainfall impact in Maharashtra has delayed cane crushing in the state. So far by the end of 3rd week of October, the sugar commissioner's office has issued 128 licenses while 71 are still pending for approval to the sugar mills. The festive season is likely to support the market for few days and the sugar traders are waiting for the next month's sugar sales quota to be released by the government by the end of October.

The Maharashtra State Cooperative Sugar factories Federation Ltd. has requested the government to approve the sugar mills to use alcohol produced from B- heavy molasses for selling and shall help in completely avoid producing C- heavy molasses. Also, the sugar mills should be allowed to sell alcohol, rectified spirit, extra neutral alcohol and denatured spirit from B-heavy molasses. This will reduce the problem of separate storage for B and C- heavy molasses. Currently, the central government has allowed alcohol produced from B-heavy molasses to be used only for production of ethanol. Sugar mills can make and sell alcohol and spirit made by using C-heavy molasses.
