India's sugar production is at 30.67 million tonnes (MT). According to the Indian Sugar Mills Association, Sugar mills are confident that they would be able to sell 0.8 -1 MT more in domestic market compared with last year and export 7 MT, which is 1.1 MT more than the previous season. This is expected to leave the sugar industry with 2-2.5 MT less sugar stocks at the end of the season to September 30. According to the Department of Food and Public Distribution records, closing stocks at the end of the last season was 110 MT. As on June 15, only five sugar mills are continuing with sugarcane crushing and the rest of the mills across the country have closed crushing operations already.

Philippines have achieved the sugar production target. Sugar output in the Philippines has reached the set target for the season with 2.1 million metric tonnes. The sugar crop year in the country is from September to August. According to Sugar Regulatory Administration, the sugar output has increased by 0.53% from the 2.098 million MT production registered during the same period last year.

According to Indian Sugar Mills Association, almost 45.74 lakh tonnes of sugar have been physically exported out of the country from January 2021 to May 2021. Another 4.48 lakh tonnes of sugar was exported from October 2020 to December 2020 quarter against the MAEQ of last season. Also, around 5-6 lakh tons of sugar is in pipeline to be exported in June 2021. According to the Ministry of Consumer Affairs, Food and Public Distribution, the government is encouraging sugar mills and distillers to enhance their distillation capacities for which government is facilitating them to avail loans from banks for which interest subvention up to 6 percent is being borne by the government. As a result of various measures taken to address demand and supply side issues, it is likely that ethanol distillation capacities in the country would be more than doubled by 20 percent blending target by 2025.

World Sugar production is estimated at 170.3 million tonnes in 2020-21. According to Food and Agriculture Organization, World Sugar production is estimated at 170.3 million tonnes in 2020-21 sugar season with a decline of 1.6 million tonnes.
