India and Thailand would be competing for sugar export during 2021-22 season. *The India and Thailand would be competing for Indonesia market besides these two nations, Australia will also compete for market share there. Thai sugar will give competition to Indian sugar, especially due to the high freight differential (\$15-\$20) for destinations such as Indonesia. India needs to price its sugar to match Thai offers. Thailand sugar production is projected to rebound by 33 per cent to 10 MT this season. After taking into consideration domestic consumption of 3 MT in Thailand, it would have 7 MT of surplus sugar to export. It is expected to export 2.5-3 MT more sugar than last year. According to ISMA, after a record 7.1 million tonnes (MT) exports last season (October 2020-September 2021), Indian sugar shipments will likely face stiff competition from Thailand during the 2021-22 season. Sugar prices in the domestic market are currently prevailing between Rs. 3200- Rs. 3500 per quintal.*

However, this massive movement of workers was not on government record and hence they were deprived of development schemes and social security.*
